## FRANKEN'S MASTER LIST OF TULIPS

### Breeders Tulips

Consists of a great many choice varieties on tall, sturdy stems, and a wider range of colors than the Darwin Tulips. You will find in the breeders many choice colors of bronze, and many fair yellows, where there is neither of these colors found in the Darwins. Breeders are very fine for rock gardens and plantings among evergreens. Many years have been devoted in breeding up this strain of Tulips from whence their name, BREEDERS, has arrived.

\*Tulips marked (\*) are good forcing varieties.
