

Hints for the Home

Goodies for the School Lunch—how important—but how difficult to think of in the early morning rush when every minute counts! Perhaps no other dainty appeals to children quite as much as does a fruited gelatin or a charlotte. Yet few mothers recall this when planning these desserts for family meals.

Keep on hand a supply of ice cream containers (they cost only a cent or two) so that next time you prepare a fruit loaf or a chocolate jelly, a Ba-

At best the cold lunch leaves much to be desired, when appetites are finicky. It is surprising to see how much these little "extras" do to keep children satisfied.

Handy Salad Moulds

Use muffin pans to mould the salad; they make just the right individual portions, and save space in the ice box, too.

Backing for Rugs

When rugs have become limp or curled, try coating the under side with very thin cooked starch to which is added five cents worth of gum arabic dissolved in a little water. Apply with a paint brush and allow to dry thoroughly before reversing the rug.

Increase Salary of Probation Officer; Provide Assistant

Provision for an assistant probation officer in juvenile court has been made by the board of supervisors through the adoption of a resolution stipulating that not more than \$1,200 should be expended annually for such a purpose.

At the same time it was provided that the probation officer should not receive more than \$2,400.

The board empowered County Judge P. L. Persons to make the appointment of an assistant.

Judge Persons stated, after being advised of the action, that the regular routine work had reached the capacity of one person and that he intended to appoint an assistant for short periods of time when the probationary cases and home supervision became too much for Mrs. Mary Polmeteer Funk, the juvenile officer.

"In case something arises where another person is needed I will provide for it through an appointment. Right now there will be no permanent assistant named," he declared.

For the past seven years Mrs. Funk has received \$175 monthly, which will be done, it is understood.

The agricultural experts claim they can now control witch grass, but the boys will also have to get the pig-weed, wormwood, "pusley," and many more weeds out of the garden before they can be allowed to go fishing.

The sporting pictures show the girls taking tremendous runs on the tennis courts, but they do not show equal agility when asked to hang the clothes out on the line.
