 Bottom—Arthur Fox, Tom Strenger, Roy Worthington, Richard Gault, John Krafft, Charles Swan, Sam Santi, John Cummings, Benjamin Stein, Sam Rentz.

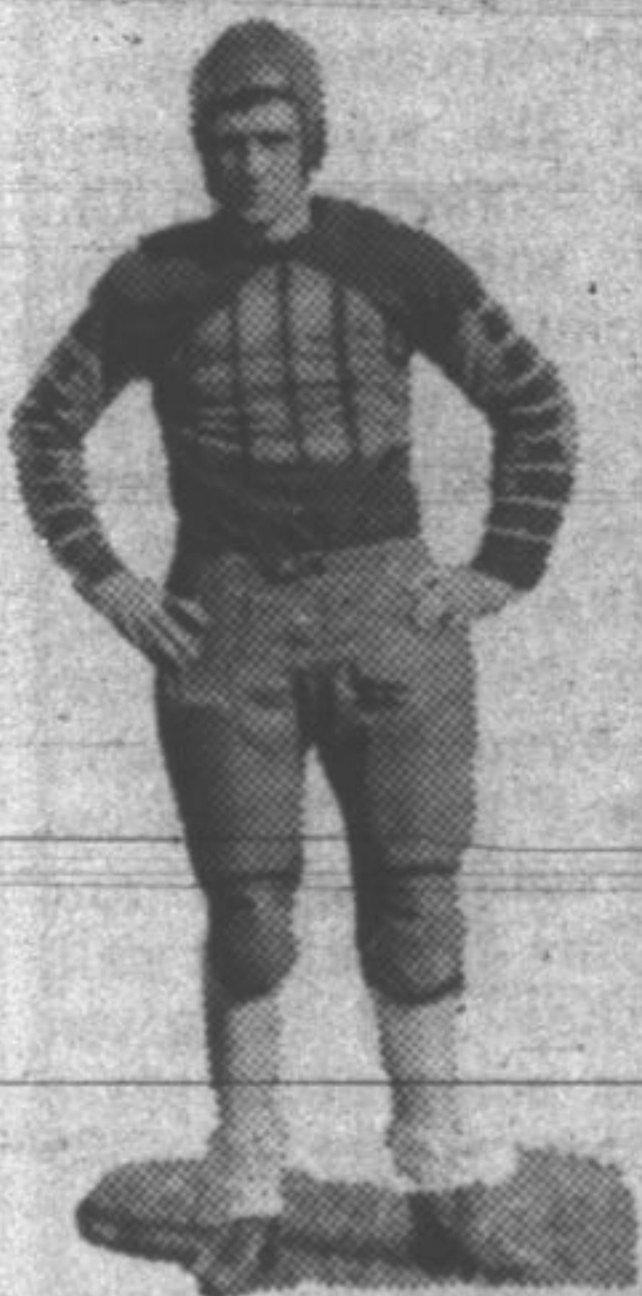

## DEERFIELD-SHIELDS DEFEATS THORNTON

### Wins Second Game of Season Saturday; Score Is 34 to 0; Details Given

Trimming Thornton to the tune of 34-0, Deerfield-Shields defeated Thornton in the second game of the season, Saturday, Oct. 5, and gave the Suburban league teams something to think about.

#### First Quarter Important

The first quarter was the big one for Deerfield. Within the first few minutes, Thornton found themselves being shoved back toward their own

goal posts, with O'Connor finally plunging through for the first touchdown. Seyfarth made the kick. Shortly later, Deerfield was again in Thornton's territory. This time it was Bartlett who carried the ball across the line. Again Seyfarth made the kick, leaving the score at 14-0, in Deerfield's favor.

#### Seyfarth Makes Third

Just before the end of the quarter, Deerfield added seven more points to her score, when Seyfarth got over the line for a touchdown. There was some doubt as to whether the ball was over the line or not, but Seyfarth relieved everyone's doubts by getting up off the ball and showing that it was really over. Once again Seyfarth kicked successfully.

In the second quarter, Thornton's team began to stop the Deerfield boys and gained a few yards now and then. Their gains, however, were few and far between so they could not score. The last of the half was more interesting, because it was not so one-sided.

#### Bartlett Good

Bartlett, Seyfarth, and Rogan made big gains throughout the game by their long runs. They were right on the job all the time. Maiman, at

center, did his job thoroughly. Nothing escaped him.

Most of the time during the third quarter, many of the regulars were resting for a final drive, and Coach Peel gave the subs a chance to show their stuff. The teams were more evenly matched, then, neither side scoring in the quarter.

When most of the regulars got back in during the last quarter, things again began to happen. Rogan caught a pass and was away for the touchdown before his opponents knew what had happened. This time Rogan tried the kick and made it.

A little later Rogan caught another pass and got close to Thornton's goal, with three downs to go. A plunge brought the ball a few feet closer to the goal and on the next play O'Connor put it over. The kick failed to reach the bar, leaving the score at

34-0, which was the count at the end of the game.

The coaches must have had a hard job trying to decide who to put in and who not to, there being so many players of almost equal ability.

#### Fighting Hard

When Maiman was not in, Rhinehart centered the ball with precision. Carroll and Moon broke Thornton's ranks wide open on many occasions. Maloney was in there fighting a good part of the time.

Lester played his usual brilliant game at guard. Carlson, Benvenuti, Desmond, Niemeyer, and Geraghty all played well, and added to Deerfield's fighting strength.

Seyfarth's kicking, and Rogan's speed, together with accuracy in passing, accounted for a good many points.

#### Line-up

Deerfield		Thornton
Segert	i.e.	Goletz
Benvenuti	i.t.	Zajicek
Carroll	i.g.	Hahn
Maiman	c.	Turngren
Lester	r.g.	Neal
Moon	r.t.	Bloom (capt)
Snite	r.e.	Osborn
O'Connor	q.	Glob
Seyfarth (capt)	i.h.	Lawrence
Bartlett	r.h.	Klien
Rogan	f.	Forbes

## H. S. Cafeteria Serves About 1,000 Each Day

We serve on an average of 1,000 students a day," says Mrs. Wright, manager of the Deerfield-Shields high school cafeteria.

The 1,050 students that were served on the first day of school was the largest in many years. Mrs. Wright finds that because of the large number of students to be taken care of each day, it will be necessary for her to center all her attention on managing the work and planning the menu for each meal. Mary Lou McLernan, therefore, a post-graduate at Deerfield, has been secured to work as cashier. Formerly Mrs. Wright assisted a student with this work.

The lunchroom installed some new equipment during the summer vacation. New rubber stone flooring was put in to make the room more quiet, and to permit the floor to be cleaned more easily. A new display counter was added to the lunchroom to make

the food more appetizing. In the kitchen, a new steam cooker for vegetables is being used.

There are four new kitchen helpers, and there has been a slight change in the arrangement of the workers. Enough new chairs have been placed in the cafeteria to make the number of tables and chairs uniform. The old oak tables and chairs that were in the east corner of the room have replaced by the better green chairs.

"There has been no increase in the candy sales," says Mrs. Wright, "and we are glad of it. It only means that the students are eating more substantial food and less sweet food. If any students wish to have some new dish to be served in the lunchroom, we will be glad to serve it as an experiment. Tomato juice is the only new dish added so far this year. It has few calories, but contains enough vitamins."

He: "Surely I've seen you somewhere?"  
 She: "No, I've never been anywhere."

## DEERFIELD-SHIELDS WILL MEET MORTON

Deerfield-Shields will play the first league game of the year with Morton next Saturday afternoon the high school athletic field, Highland Park.

This will be the first time these two teams have met on the gridiron since the days of the World war. Morton is known to have one of the best high school teams around Chicago.

The west side boys will come keyed up to give Deerfield some very tough opposition. Coach Peel has his gridiron machine ticking like a clock and hopes to send the downshore boys home on the short end of the score.

## Many New Books in High School Library

"Quite a few new books for the library have come in during the summer months," says Mrs. Walters, school librarian.

Most of the books are on either nature, Indian lore, marine and air topics, or building model yachts, ships, airplanes, etc.

Any persons interested in airplanes and their functions might well read "Flying the Arctic," by Wiggins and Smith, and set their imagination free to the thrills of its lifetime. Wiggins and Smith are the two authors who wrote "Arabian Nights."

People interested in Indians and craft lore or wanting references for themes, might possibly care to read "The Book of Indian Crafts and Indian Lore," by Julien Solomon, or Bernard Marshall's book: "Redcoat and Minute-Man."

Books on building yachts, ships, etc., are as follows: "Ship Model Making," Volumes 1 and 2, by Captain McCann, and "Build a Winning Model Yacht," by Thomas Moore.

For marine topics ask the librarian for "Blowing Weather," by J. T. McIntyre; "Raiders of the Deep," by L. Thomas; or "Lost Ships and Lonely Seas," by R. Payne.

"Daddy, teacher inquired after you today."  
 "Really?"  
 "Yes, he said he would like to know what sort of a fool my father was."
