Lathers in District

Get Increase in Pay

An increase in wages of 60 cents a day and a five day week has been granted to lathers of Waukegan and other towns on the north shore in which these workers are affiliated with the Chicago local of that union through agreement signed last week.

The agreement is retroactive to September 1. The new wage schedule of working days will hold good until May 31, 1932.

The most important provision in the agreement, according to labor leaders, is the granting of the shorter work week to another of the building trades.

The new wage scale of the lathers, with the increase, is \$13.60 a day, the same as was granted to the plasterers.

Not many business men dare today to conceal the small apples at the bottom of the barrel, but there are still many people who keep their front lawns looking far better than their back yards.
