

Y.W.C.A. Notes

W. C. A. reminded one of a hive of bees though in this case the swarming was done by girls. From three to four they came from all directions pouring into the building and from five to half past they poured out, in happy, merry groups of five or six.

At the Freshman party the girls played all kinds of games and danced. They were told a bit about the things the Girls Reserves try to do and be and were invited to come back the following Monday and hear more if they cared to about the Girl Reserve program. It is hoped that out of this group that is interested enough to come back there will grow a splendid Freshman Girl Reserve club, composed of girls who will truly endeavor to "Face life squarely and to find and give the best."

Mothers' Club

Mrs. St. John, Mrs. J. C. Fay and Mrs. Louis Schemmel of the Mothers' club met at the Y. W. C. A. with Mrs. O. L. Olesen on Tuesday afternoon, October 8th to plan a program for the next meeting of the Mothers' club which will be held at the Y. W. C. A. on Tuesday, November 5th. It was decided to stage an automobile party similar to the one which was such a success at the Faculty party. The material used at the Faculty party are still on hand so the preparation for its repetition will not be such a great task. Mrs. Bruce Chandler has very gladly accepted the invitation to the club automobile party to assist with the games. The following is the club program: December — Music program; January — Sleigh ride party; February a Valentine party; March a play; April stunt night masquerade; May, Brands Orchestra and June a supper.

Commerce Chamber Endorses "Y"

The Chamber of Commerce at its meeting on Tuesday, October 8, went on record as endorsing the annual Y. W. C. A. drive for funds, and on motion of Lyle Gourley, the body voted to accept the invitation of the "Y" to hold the November meeting of the Chamber in the Y. W. C. A. assembly hall, as guests of the association.

The Y. W. C. A. campaign committee asks everyone in Highland Park to follow the example of the Chamber of Commerce and not only endorse the drive but give it the heartiest financial support.

Sixty-Three Miles of Christmas Seals for Lake Co. This Season

Sixty-three and thirteen hundredths miles of Christmas Seals have been sent to the Lake County Tuberculosis society for Lake county according to Miss Theda Waterman, county nurse.

This contains numerous bundles of the little stickers that number 4,000,000 in all. If each seal brings one cent the revenue will reach \$40,000.

Miss Waterman doubts if this much can be realized as the sale in the past has not cleared the \$10,000 mark and the county stands next to Cook county in the state on the basis of returns.

The money is used for the purpose of combating tuberculosis. It retains a nurse and an additional staff at Springfield that makes it possible to inspect the school children once a year, and sometimes twice so that

health recommendations can be made. In addition clinics are held for the children who are suspected of being tuberculosis subjects and those actually afflicted with the disease.

Oderless Skunks!

Des. Moines, Iowa — There is a quintet of odorless skunks in Iowa. Although parents still are reluctant in allowing their children to go near the cage, five skunks of the new variety

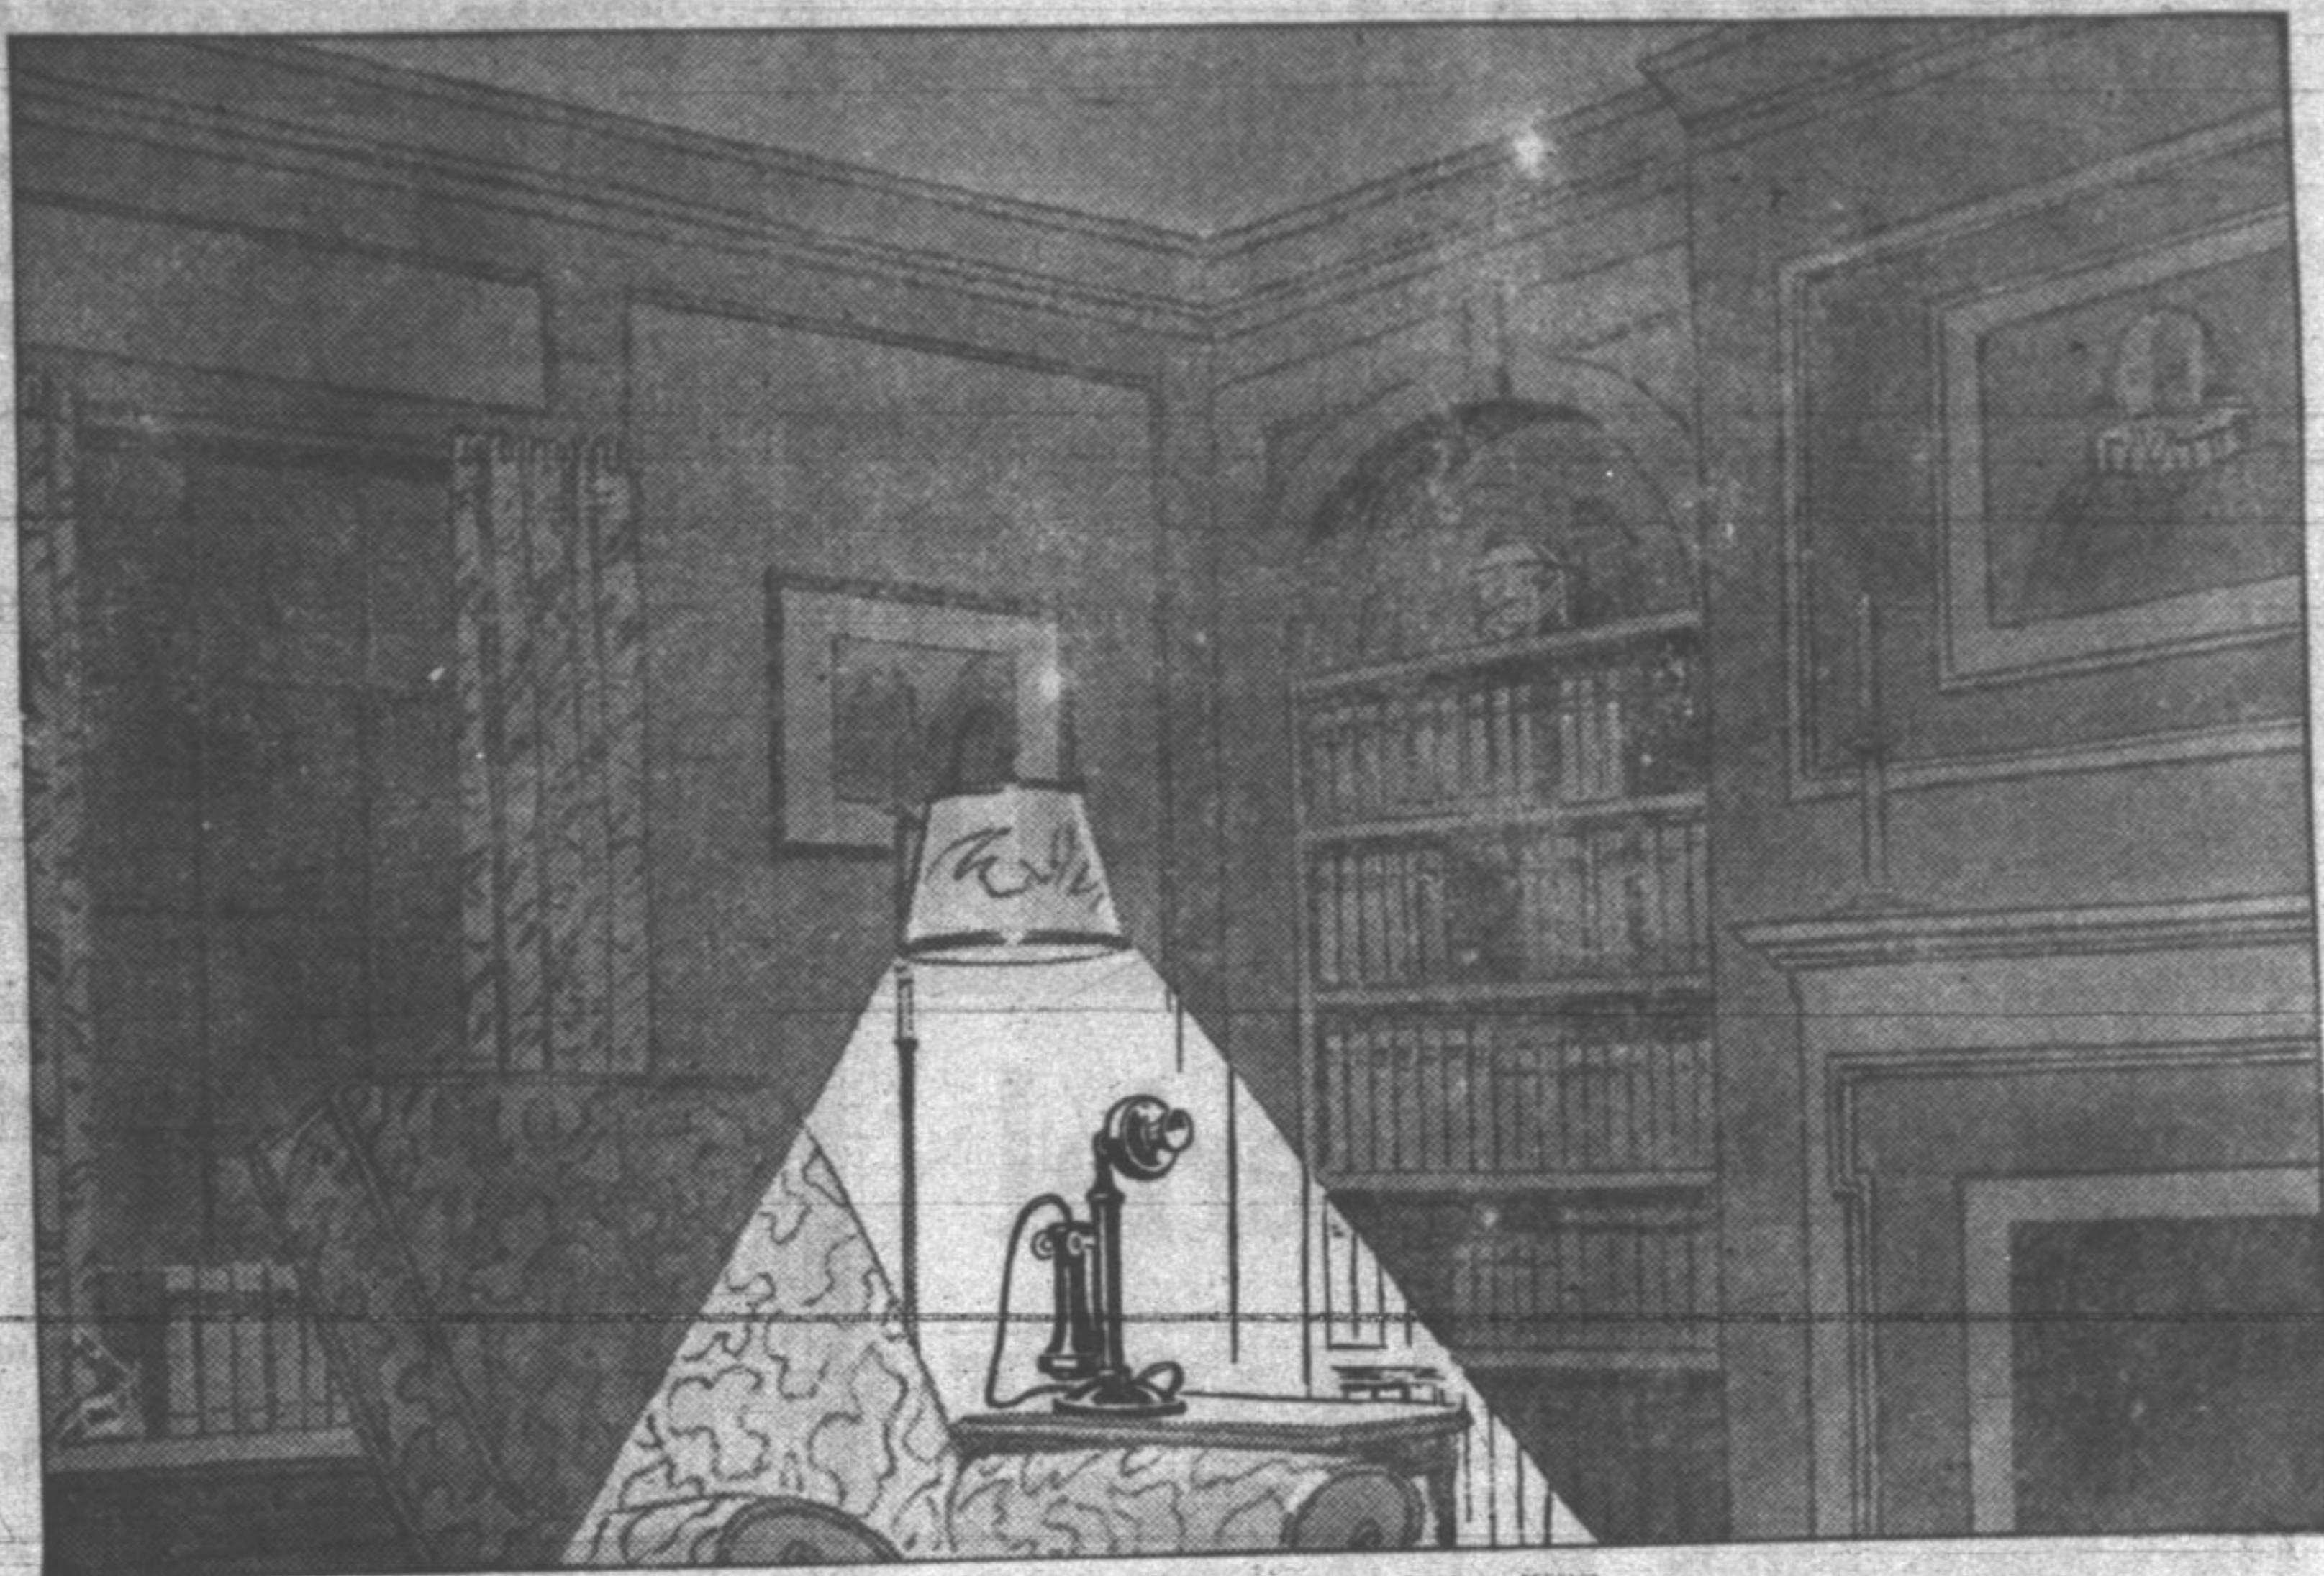

are in the possession of the State Game and Fish department here. These animals can be handled without fear of having to bury reeking clothes and become a temporary outcast from society.

Valuable Collection

In addition to the vast zoological collections made by the Crane Pacific Expedition for Field Museum of Natural History, comprising several

thousand specimens of mammals, birds, fishes, reptiles and amphibians, considerable ethnological material was obtained by the expedition during its 25,000-mile voyage to many islands and countries of the South Pacific. This material will be used in the museum's department of anthropology.

The October wedding bells ring regularly.

In Your Easy Chair

READING a good book . . . feeling pleasantly lazy but altogether comfortable . . . you remember a telephone call you should have made. Instead of climbing upstairs or going to the other end of your apartment you reach for the extension telephone on the table at your elbow! This is solid comfort in your home — a comfort that every living room should and can have.

Extension telephones are also convenient in bedroom, kitchen and other parts of the house or apartment. They bring the service to you. The cost is small.
