**Radiant Gas
Room Heater**

The glow from a Gas Room Heater has the same beneficial effect as the glow from the sun. This science has definitely proved. NOW you may enjoy health giving rays in the fall and winter as well as in the summer when you are out under the sun.

The Gas Room Heater provides clean heat which can be had instantly — simply by touching a match to the heater. Such abundant warmth — at just the right temperature and easily regulated — can be had in no other way. No fuel to bother with! No muss to clean up afterward!

*Come in and see these heaters...or
just call and we'll gladly send a repre-
sentative without any obligation to you.*
