THIS NEW FOCALIPSE HEATER HEATER. When a little extra heat is needed for baby's bath, a Focalipse will provide it.

... provides extra comfort and warmth wherever you want it. Plug it into the bathroom when shaving or bathing—or into the living room or bedroom. It quickly takes the chill off for autumn days and evenings.

A new design makes the Focalipse more efficient than any heater yet devised. All the heat from the element is directed back to the reflector, which is shaped to throw it out over an area much wider than that possible with previous types of heaters.

Four Styles of Focalipse Heaters for the Home
