Green Bay Road South Is Open; Fine Paving; Credit Is Deserved

While not officially opened, the new S. Green Bay road pavement is being utilized by regular traffic and proves to be among the finest streets in the city. An engineer, speaking to a representative of the Press the other day, expressed the opinion that this is one of the best paving jobs he has seen in this section.

Much credit is due the city administration, the Highland Park Chamber of Commerce and the Highways Construction Co., for the success of this project, and the property owners affected are to be congratulated on their public spirit in making possible this notable improvement.
