### COUNTY POPULATION ESTIMATE ISSUED

Chicago Regional Planning Association's Figures Are Conservative

Lake county's population on Jan. 1 will be 113,800 according to a forecast made public today by the Chicago Regional Planning association. The figures, especially as regard population of north shore towns seem very conservative, if not too low in some instances.

This forecast shows Waukegan to have a population now of 32,500 which will go to 46,000 in 1940 and to 62,000 in 1950. The county will have 158,000 in 1940 and 210,000 in 1950, according to these estimates.

Highland Park, the second city in size in the county, will have a population of 13,000 on Jan. 1 and 21,000 in 1940 and 30,000 in 1950, it is shown. North Chicago, which is in third place, will have 23,000 at the end of the next 20 years, according to association estimates.

Chicago Census 3,320,000  
Chicago will have a population of 3,320,000 Jan. 1 and Cook county 3,950,000, this survey shows, while the entire Chicago area from Racine, Wis., to Gary, Ind., along the Lake shore will boast 5,048,000 people.

The figures for Chicago and the region coincide with the association's forecast of January, 1298, except that Cook county grew 8,000 faster than anticipated.

The estimates are based on studies undertaken by the Chicago Commonwealth club in collaboration with the Chicago research committee of the University of Chicago, public utilities and municipalities.

Chicago's population in 1950 will reach 4,500,000 it is estimated.

Canada is trying to get her people to buy less American dry goods, which seems hardly chummy when Americans are buying more and more Canadian wet goods every day.—Fort Worth Star-Telegram.

Rabbi Stephen Wise, the New York "liberal" who makes the welkin ring with his protesting outcry every time "imperialistic" Uncle Sam sends some marines to protect American life and property abroad, is making it ring again with the demand that Great Britain send enough machine guns to Palestine to settle the Arabs.
