

Superb  
*Temple*  
 as of Course!  
 A Great Engineer  
 Perfected the Chassis

Screen Grid Chassis Optional  
 Equipment—at no advance in  
 price.

Temple is all-electric, standard chassis—six 227 tubes—push pull amplification in last audio stage, using two new 245 power tubes—full-wave rectification. A power supply over-sized in every respect in combination with the Temple electro-dynamic Speaker assures matchless tone for Temple Receivers. Consoled ready for use. The Temple 8-60 Console . . . \$149; The Temple 8-80 Grand Console . . . \$169; The Temple 8-90 Radio-Phonograph Combination . . . \$269 (less tubes). Temple Receivers are licensed by R. C. A. and Associated Companies.

PURITY of tone has been always the one thing needed to insure radio reception of surpassing quality. This new Temple is the latest and greatest creation of a master engineer who has initiated much of the sound progress made in the field of radio invention. It is certain to win your commendation on the score of beauty. But beyond that, Temple's strongest appeal lies in its superb tone—tone that has given vogue to a new word with a world of meaning—Templetone. Only hear it. At its voice, distance melts into onthingness. Consciousness that this is a man-made instrument gives place to an incredible feeling that Temple has won a remarkable victory over elements and materials.

Housed in beauty, the Temple electro-dynamic is the only speaker with the adjustable hum eliminator feature. Separate table type speakers are available for those who do not own a Temple Receiver.

\$39.00 for the Temple electro-dynamic Speaker  
 \$20.00 for the Temple Magnetic Speaker
