

Mother: I wonder who it was that never folded his clothes when he went to bed?

Little Lawrence pulled the bed-clothes over his head and answered, "Adam!"

Mrs. Gordon (to husband who is listening in on Sunday evening's radio program): Tammas, Tammas, ye mustn't laugh like that on the Sabbath.

Tammas: Laugh, wumman! The minister has just announced a collection and here I am safe at home!

Wagg: Have any luck hunting lions in Africa?  
Tagg: Yes, I didn't meet one.

Gentleman on boat: I don't feel at all safe in this leaky old boat.  
Boatman: Don't you worry, sir. If anything happens I'll take the blame.

Wife: A poor woman came today to ask for old clothes.

Husband: What did you give her?  
Wife: That old suit you've had for ten years and the dress I bought last month.

## PLAN TO ENLARGE WAUKEGAN HARBOR

### Extensive Improvements to Be Made by Government; Chindblom Aiding

Extensive changes in the original plan of improvement of the Waukegan harbor which will result in greatly enlarging the size of the harbor as well as affording greater protection to the waterway from the vagaries of the elements was recommended by Congressman Carl R. Chindblom in a conference with the committee on rivers and harbors of congress who in turn reported on the advisability of the plan. The plan provides for an expenditure of more than \$400,000 it is believed.

The recommendations now being considered by the rivers and harbors committee provides for extension of the west end of the south pier to a point about 500 feet south and the construction of a second breakwater which will be located south of the entrance to the harbor.

#### Part of Big Project

These improvements are to be done in connection with the building of an extension to the present breakwater north of the entrance to the harbor. This extension will connect the breakwater with the shore on the north beach and besides offsetting the drifting of sand into the mouth of the harbor in the future, it will likewise provide a large lagoon north of the pier.

The building of another breakwater south of the entrance to the harbor will provide what is known as an arrowhead entrance to the local waterway and will greatly add to the protection of shipping as well as preserve the piers of the harbor.

#### Free Movement of Boats

The proposed plan of extending the west end of the south pier to a point farther south will not only provide more area for the mooring of small craft but will likewise afford larger boats more freedom of movement in the harbor.

## Madagascar Tree Is Traveler's Life Saver

In Madagascar there grows a peculiar palm tree called the "traveler's tree." It is so named because water with which a thirsty wanderer can revive himself is said to be found in its large sheathing leaf bases. It is a member of the banana family, and a specimen branch and fruit cluster from it is on exhibition in the department of botany at Field Museum of Natural History.

#### Just About It

This age may just seem more sinful because it doesn't take the precaution of sneaking out behind the barn.—Portland Express.

#### New Peace Plan

Perhaps the peace of the world might be promoted if Russia and Mexico could arrange an exchange of defeated candidates. — The Terre Haute Star.

AT WAUKEGAN

# GENESEFF

A PUBLIX THEATRE

SUNDAY, DECEMBER 29

ON THE SCREEN
