

Government is trying by every possible means to get all of the public lands into the hands of individual owners. That is the only safeguard for the nation's future. Land is the one commodity which is limited in supply and unlimited in demand. Sooner or later some other nation will try to take the land away from us. If we own it as individuals we will fight for it; if it mostly belongs to a few persons of wealth we will let them do the fighting and pay taxes to the new owners if the old ones are beaten.

**MEAT**

The food faddists have been preaching against the eating of meat for many years. Except in certain types of disease, intelligent physicians tell their patients to eat meat freely, as nature intended they should. Even in cases of high blood-pressure, modern medical practice is not to cut out meat but to counteract it by the liberal drinking of the juice of oranges or grapefruit.

Stefansson, the Arctic explorer, lived for five years on an exclusive diet of meat, as the Eskimos do, without ill effects. The Smith Sound Eskimos, so Donald MacMillan reports, eat only meat and eat that raw, as they do not know how to make a fire.

Sensible people will continue to eat whatever they can digest and as a rule will live longer and happier lives than those who worry about their diet.

**ADJUDICATION NOTICE**

**PUBLIC NOTICE** is hereby given that the Subscriber Administrator of the last will and testament of John Wilhelm, deceased, will attend the Probate Court of Lake County, at a term thereof to be holden at the Court of Lake County, at a term thereof to be holden at the Court House in Waukegan, in said County, on the first Monday of April next, 1930, when and where all persons having claims against said estate are notified and requested to present the same to said Court for adjudication.

PACKARD, BARNES,  
McCAUGHEY,  
SCHUMACHER.

JOHN W. MUNRO,  
Waukegan, Ill., January 13th, 1930. 46-48

**Will of Libertyville  
Man Cuts Off Relatives;  
Property to Neighbors**

Because of his great niece and great nephew in Chicago failed to comfort or care for him in his old age and final illness, George M. Swift, aged Libertyville resident, cut them off in his will with \$5 each and gave his estate of \$6,500 to two neighbors who were extremely kind to him, it was shown before Probate Judge Martin C. Decker, says the Waukegan Sun, which continues:

William J. Schley and Elmina Schley, the neighbors, are to share the estate.

**NOTICE TO CONTRACTORS**

Sealed bids will be received by the Council at its office in the City Hall, Highland Park, Illinois, until 7:30 o'clock P. M., Monday, the 10th day of February, A. D. 1930, for the furnishing of all labor, material, tools and equipment necessary for the construction of shore protection for the Highland Park Water Works and Filtration Plant in accordance with the plans approved by the Council therefor.

Each bid must be accompanied by a certified check made payable to the Mayor of the City of Highland Park for a sum of not less than ten (10) per cent of the aggregate of the proposal.

Payment for said work to be made in cash. Plans, specifications and instructions to bidders may be secured from the City Clerk at the City Hall, Highland Park, Illinois, or at the office of Fears, Greeley & Hansen, Engineers, at 6 N. Michigan Blvd., Chicago, Illinois.

The Council reserves the right to reject any and all bids if they deem it best for the public good.

By order of the Council of the City of Highland Park.  
V. C. MUSSER,  
City Clerk  
Dated at Highland Park, Illinois, this 23rd day of January, 1930. 47-49

"Because of the indifference shown me in my old age by each of the above relatives, it is my express request that they be given no more than above stipulated," the will read, referring to the \$5 bequests.

"I am leaving the bulk of my estate to William J. Schley and Elmina Schley. I am taking this way of showing my deep appreciation of the many unselfish kindnesses and attentions which they have both given me in my old age when I lived alone and was ill," the will concluded.

To a wife a husband isn't worth much around home, but is always worth twice as much as what he gets where he is employed.—Toledo Blade.

**BEAUTY**

Beauty, like morals, is a question of latitude; there is no rule of universal application.

Shakespeare is the one universal author because he never describes his heroines. Juliet was fourteen and beautiful; that is all he says about her looks. The Scandinavian can picture her as a majestic blonde, the Kaffir as a coal-black Venus. The Juliet of the Chinese has slanting eyes; to the Spaniard she must have the long black lashes of the cow-eyed Andalusian Moor.

It is a fortunate thing for humanity that tastes in beauty differ. Even the movies have not been able to standardize the feminine ideal.

**STEAM**

The U. S. Aircraft Carrier "Lexington" is tied up at a pier in Puget Sound, while her engines are turning the dynamos which generate electric current for the cities of Tacoma and Seattle. This is a good use for a ship of water. It suggests a way of making our Navy earn its keep.

It is also an illustration of what happens, sometimes, to water-power. Tacoma and Seattle get their normal municipal supply of current from hydro-electric plants which the cities own. The unusual drought in the Northwest reduced the flow of water and cut down the production of electricity. The great power companies regard waterpower as valuable only as an auxiliary to steam plants, which are already generating twice as much current in America as all the water-power put together, in most cases more cheaply.

**ALUMINUM**

The commonest of all metals, more than twice as common as iron, aluminum, was a curiosity at the Centennial of 1876 and only came into general commercial use when the harnessing of Niagara Falls made the electric furnace economical. Alloyed to give it strength, its light weight makes it more useful than steel in hundreds of applications. The largest airplanes are built of it.

Now a project is on foot to cast automobile bodies in one piece out of aluminum. That will still further reduce the cost and weight of motor cars. The lighter the car, the less gas, the less wear on tires. The time will come when a serviceable automobile will sell for not more than \$250, and run 50 miles on a gallon of gas.

**WAR**

The only independent persons are those who own land. The only countries whose people care enough about them to fight for them are those made up largely of individual landowners. When the common people were peasants only the landowning nobles with their hired soldiers went to war.

In many states corporations are forbidden to own land except for their own business purposes. The
