Then to top the evening off, the girls had a delicious lunch at the Russell inn. —Norma Rolando.

Batak House Front Is Interesting Exhibit

An elaborately carved and painted wooden house front from a hut of the primitive Batak people of North Central Sumatra is on exhibition in the department of anthropology at Field Museum of Natural History. It is adorned with four skillfully carved heads in semi-human form, representing mythical patrons of the tribe, and the first beings believed to have reached the earth whom the Batak people revere as "gandfathers" of humanity.
