

Six per cent and *Safety*

There is an old saying relating to Thrift, Savings and Investments—that the man who at twenty begins to invest his savings in securities paying an interest rate of 6%, at the age of sixty, will have outstripped the fellow who has speculated and reached out for quick returns and large profits.

At this time we are offering attractive bonds and choice first mortgages on real estate yielding 6% interest.

Let us know how many you can use.
