The services were all well attended on last Sunday. We had the pleasure of greeting a number of friends for the first time. At the evening service some very interesting "echoes" from the Founder's Week Bible Conference held at the Moody Bible institute, Chicago, were given by those

who had attended the conference. The attendance was so large that three over-flow meetings had to be held at the evening sessions to accommodate the people.

Quite a number of our workers are procuring copies of Dr. Pettingill's book on the Gospel of Matthew, as an additional aid in the preparation of the S. S. lessons. An outline of the book of Matthew, prepared by the pastor, has been distributed among our S. S. people. The lesson for Sunday, based on chapters 8 and 9, shows that Jesus Christ is qualified to banish from the earth the consequences of sin and to control the elements of nature. When that is accomplished, conditions will be ideal.

Faith in Jesus Christ is essential unto salvation. Mere profession with-

out faith will end in disappointment and ruin. Jesus said, "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father which is in heaven. Many will say to me in that day, Lord, Lord, have we not prophesied in thy name? And in thy name have cast out devils? And in thy name done many wonderful works? And then will I profess unto them, I never knew you: depart from me, ye that work iniquity?" Matt. 7:21-23.

Come to the brick church on the corner of Green Bay road and Laurel avenue.

**Why Not Own One?**

Is it possible that you and your family have been depriving yourselves of all that Cadillac and La Salle can give you—because you believed they cost more than you could reasonably afford?

Let's face the facts.

G. M. A. C. Convenient Terms are only a little more month by month than what you would have to pay for cars of lesser quality.

Additional costs for gas and oil would amount to less than Twenty Dollars a year. Cadillacs and La Salles are so sturdily built that they require little attention. And the systematic inspection and tuning-up provided by Cadillac Service keeps these charges to a surprisingly low minimum.

Add to these economies the fact that Cadillac or La Salle gives you many thousands of miles more service, with no replacements. Considering all factors, the FINAL COST will be no more than that of cars priced far lower—and delivering far less satisfaction and enjoyment.

The above is a plain statement of facts—which we shall be only too happy to prove if you will give us the opportunity.
