

Mr. Arthur Young—The expert bowman, whose exploits shooting big game with bow and arrow in Alaska and in Africa have received much publicity in recent years.

Mr. Jurien Hoekstra—A baritone singer with a voice of superlative beauty and a program that high school students enjoy.

Mr. John R. Scottford—Pictures of South American life and scenes.

Mr. Haig Arklin—An artist who both speaks and paints in a charming fashion before his audiences.

Miss Anne Hoen—A professional reader of unusual ability.

Mr. Geoffrey F. Morgan of California—An inspirational speaker with a remarkable appeal to youth.

Mr. Roy Young—Violinist and bird imitator on the violin.

Dr. Floyd Brallier—Naturalist who tells delightful stories from his own observation and research among birds and animals.

Of the speakers and entertainers only those are chosen who prove to be 100 per cent entertaining and interesting to the students and 100 per cent worth while in the estimation of the advisory board of school men. How high the standard of excellence required for approval is, may be seen from the fact that only two of the fourteen who tried out the first day at Highland Park were approved by the board.

All but four of the Advisory Board were present in person. Those unable to attend were Dr. Frank D. Boynton, superintendent of schools of Ithaca, New York and past-president of the N. E. A. Department of Superintendence; Mr. M. Smith Thomas, principal Hutchinson Central high school, Buffalo, New York; Mr. Harry Keeler, principal Lindbloom high school, Chicago, Illinois; and Dr. George U. Gerwig, secretary of the Frick Educational Commission, Pittsburgh, Pennsylvania.

The following gave their full attention to the choice of candidates on the three day tryouts at Highland Park, Chicago, and Joliet: Principal Richard L. Sandwick, Highland Park, Illinois; Principal George H. Eckels, New Rochelle, New York; Principal Howard D. Weber, Batavia, New York; Principal E. E. Morley, Cleveland Heights, Ohio; Principal L. L. Forsythe, Ann Arbor, Michigan; Principal George J. Balzar, Milwaukee, Wisconsin; Principal W. A. Goodier, Bloomington, Illinois; Supt. William M. McVey, Harvey, Illinois; Principal M. S. Hallman, Cedar Rapids, Iowa; Principal M. C. Darnell, Crawfordsville, Indiana.

The office staff of the Eastern circuit as well as that of the Middle West were in attendance. Next year's program will be even more interesting and entertaining than this year's, and will stress the following educational values, directly or indirectly: mathematics and natural science (through the mechanical man), biology, art, athletics, physical education, geography, humor, English, public speaking, good citizenship, and the building of character and personality.

The speakers follow each other on the School Assembly circuit at intervals of a month, speaking once or twice daily. They are paid by the schools in the association, usually out of student funds. A given school may have from one to eight programs in a year.

Plan Another North and South Hard Road For County; Details

Right-of-ways for Route 16 from Diamond Lake south to the Cook county line are being obtained today through the office of R. M. Lobdell, county superintendent of highways, who is completing the preliminary preparatory to paving.

The survey of the highway carries it in a course south from Diamond Lake and along Indian creek. It runs to the east of Long Grove

and Buffalo Grove through Sections 6, 7, 18, 19, 30, 29 and 33 in Vernon township.

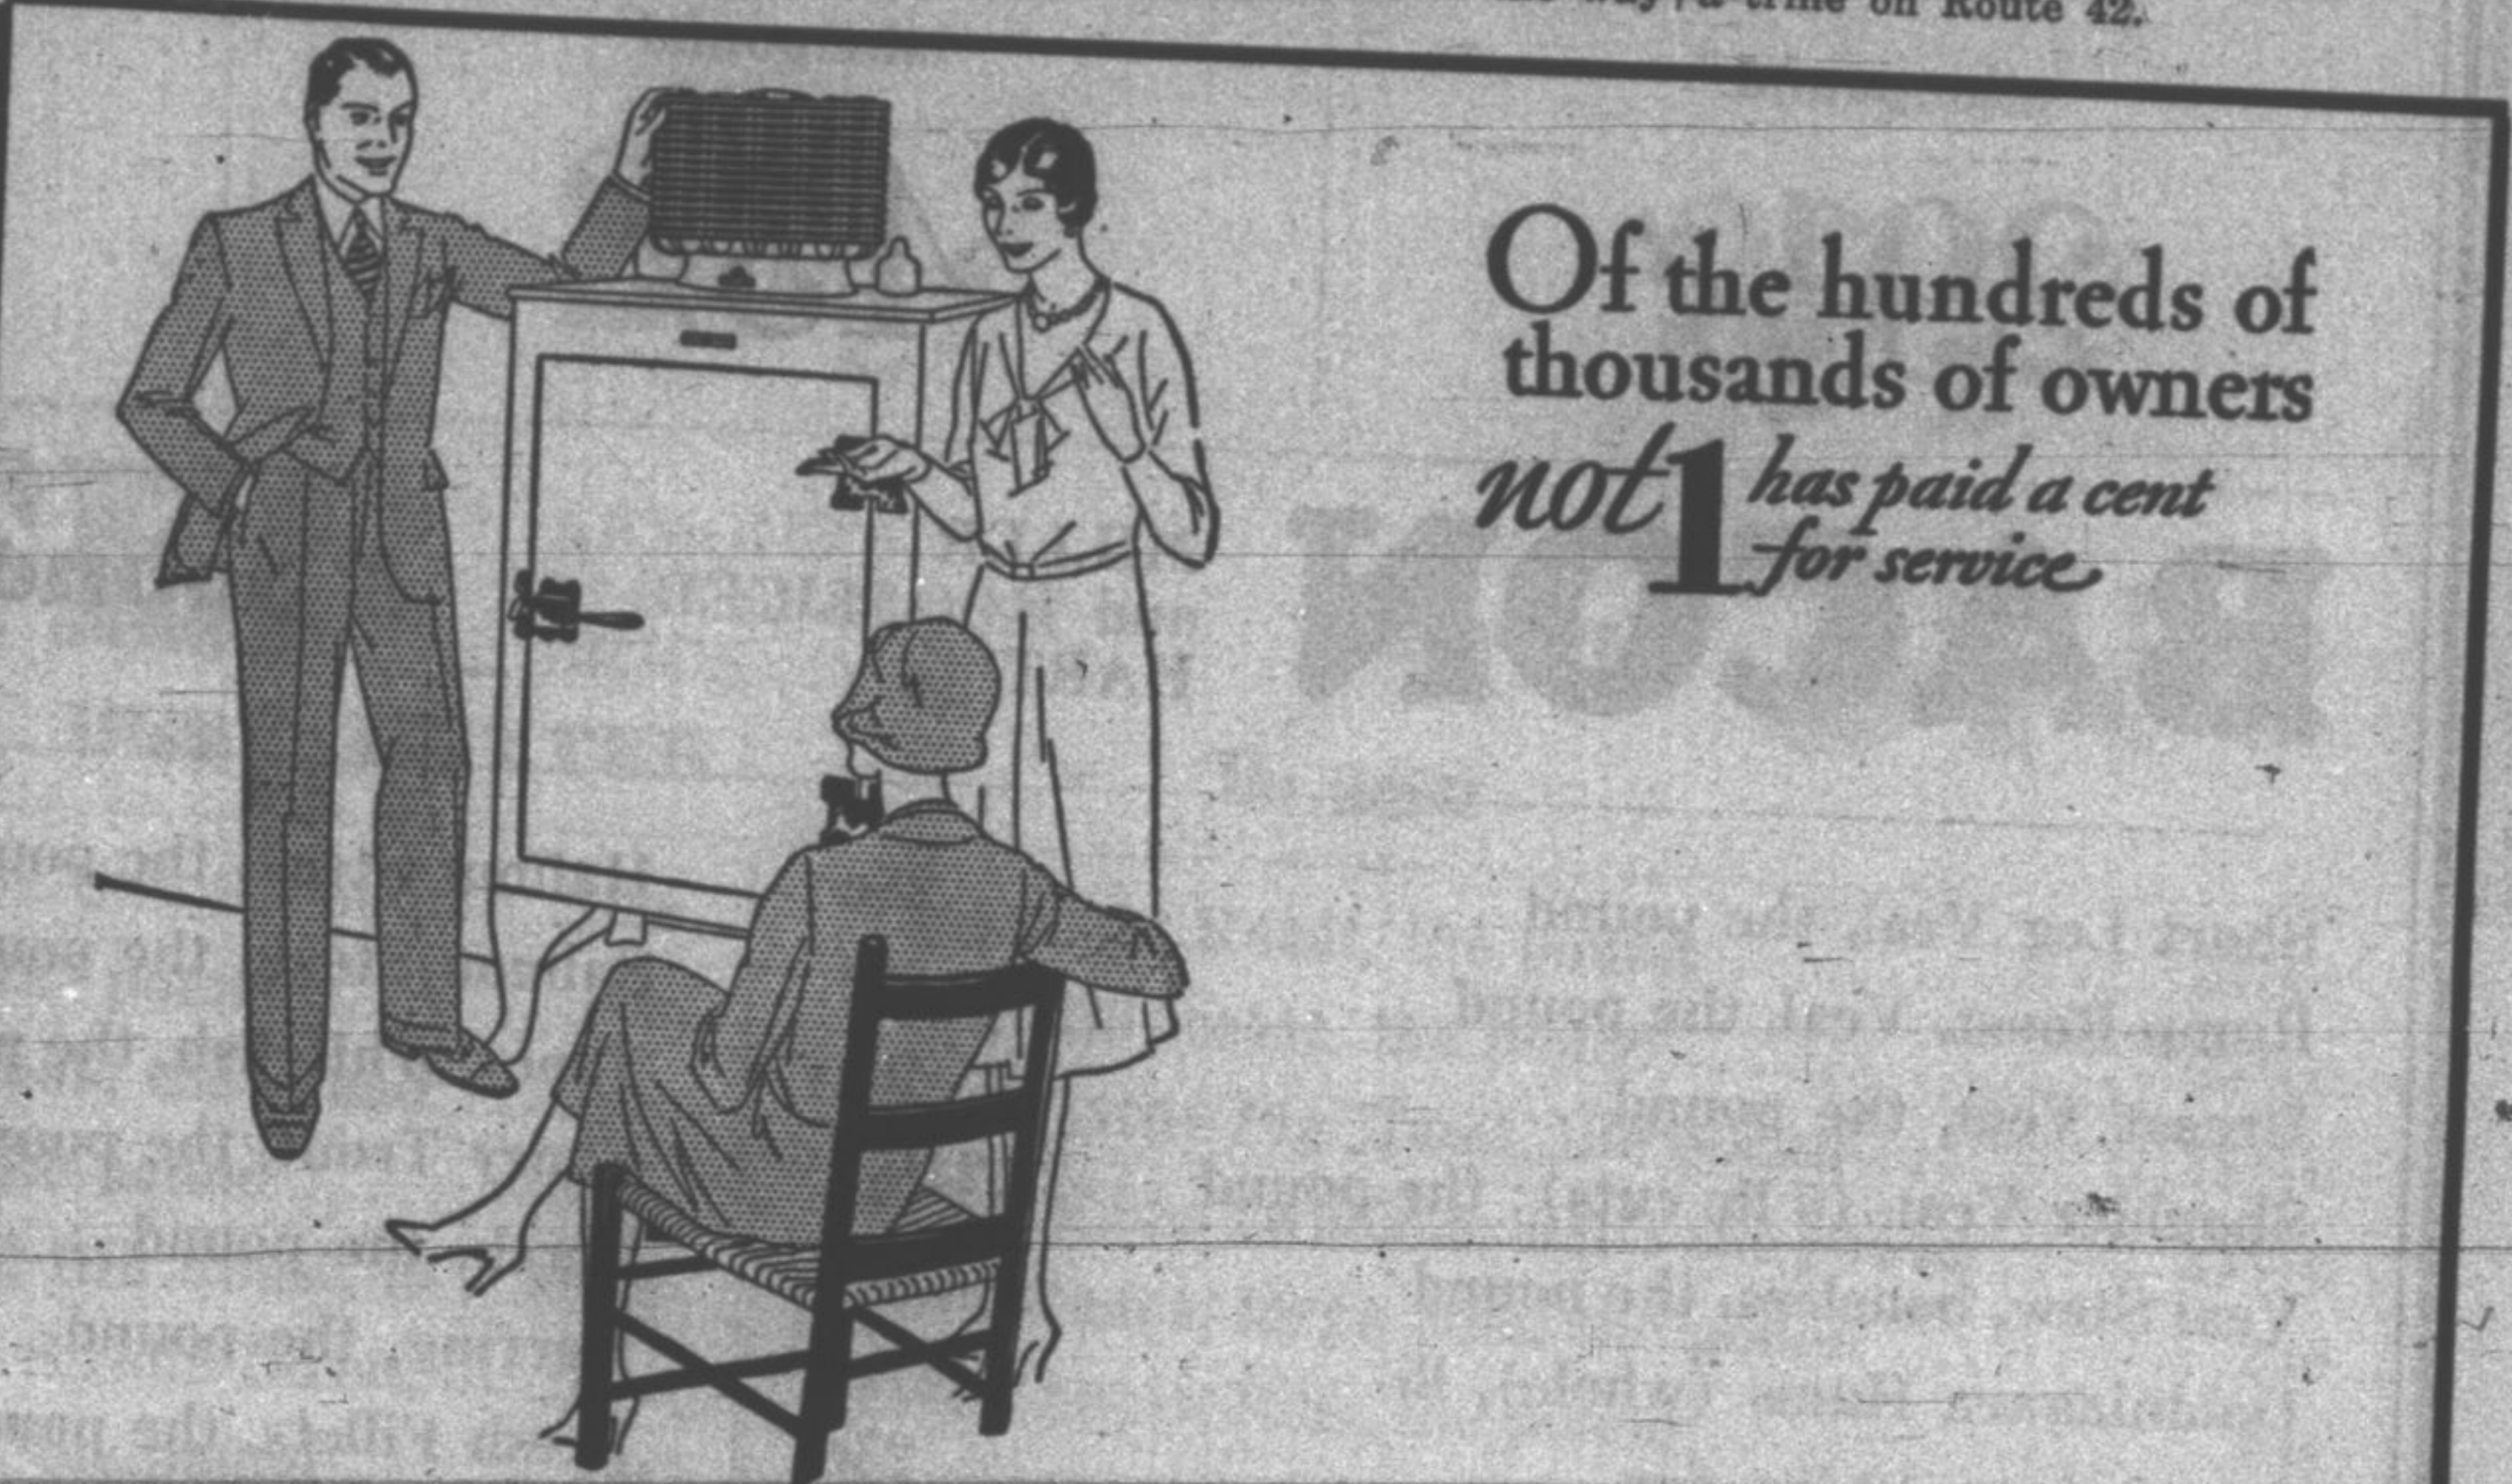

The survey purposely misses the two hamlets mentioned so as to get a better road and eliminate dangerous curves. In addition a Catholic church and a large Catholic school at Buffalo Grove would be on the pavement if the road went through that community.

"The attitude of those people in that district who have discussed the survey for the course taken. These hamlets will be cared for in the way

of paved roads very shortly anyway," he stated.

The road, when completed, will run from near Buffalo Grove through Diamond Lake to Mundelein, thence north to Gages corners where it will intersect with Belvidere road, and north past Gages Lake and Druce Lake to Wedges' corners where it will connect with the Millburn road and run to the Wisconsin line.

This will form one more north and south road and will relieve congestion on Route 21 and U. S. 41 as well as a trifle on Route 42.

Of the hundreds of thousands of owners *not* 1 has paid a cent for service

ON TOP

where it belongs

Put your hand over a radiator—and you'll know what refrigerator to buy!

Feel that current of warm air heading straight for the ceiling? Warm air has a habit of floating up—an unbreakable habit. And that includes the warm air the mechanism draws out of your refrigerator to make it cool inside.

How easy to see that the efficient refrigerator mechanism must always be on top, so that all the warm air released by it will be set free above the cabinet that must be kept cool!

You can always tell a General Electric Refrigerator. The mechanism is on top where it belongs. And that mechanism keeps the temperature of your refrigerator where it belongs. Always below 50 degrees.

And it keeps your electric current bill where it belongs. Unbelievably low. And it keeps the maintenance cost where it belongs. For three years no owner has paid one cent for service!

Why not put a nice, glistening white, all-steel General Electric Refrigerator where it belongs? Phone us, or better yet, drop around.

- AND THESE ADDED ADVANTAGES TOO!**
1. All machinery hermetically sealed in one steel casing—permanently oiled.
 2. Incomparably quiet in operation.
 3. Low running cost—a few cents a day.
 4. An accessible freezing regulator.
 5. An all-steel, warp-proof cabinet.
 6. Sanitary, all-porcelain chilling chamber.
 7. Food storage area most spacious.
 8. Mounted on legs for easier cleaning.
 9. Electrical, therefore modern.
 10. Backed by the most comprehensive guarantee ever given a refrigerator.
