

THIS NEW WAFFLE IRON

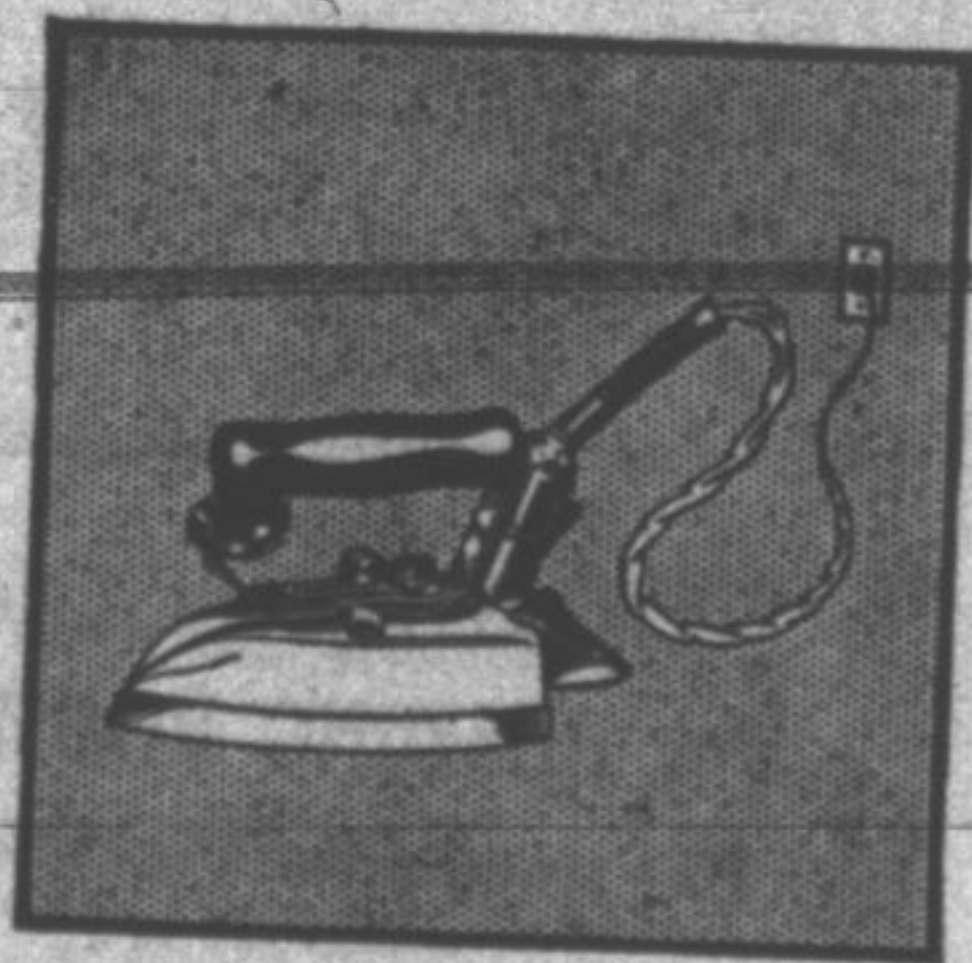

HAS AN AUTOMATIC HEAT INDICATOR

A \$12 value
specially priced at

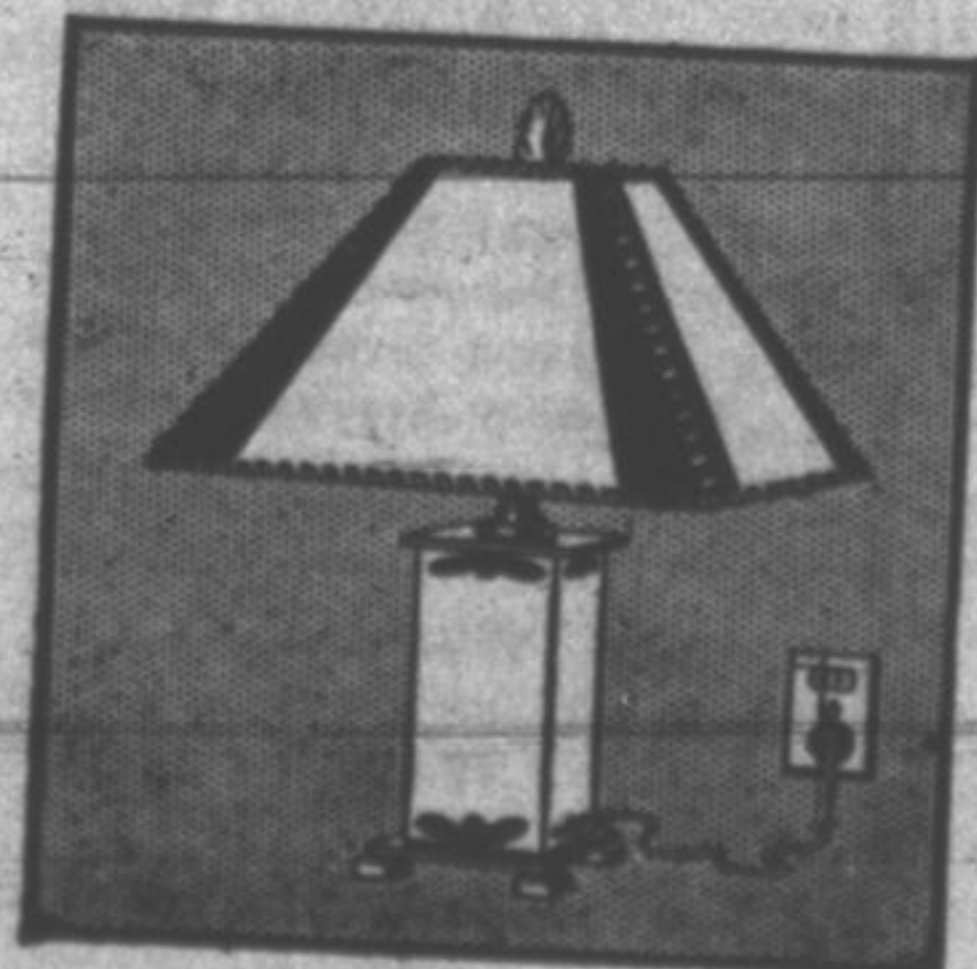

\$7.85

GET A HEATING PAD
... plugs into any wall outlet to provide quick, soothing warmth for chilly weather or for any emergency... in attractive colors, with washable white cover.
Simplex . . . \$7.50
Universal . . . 9.00

THE AUTOMATIC IRON pictured (Hotpoint) can be adjusted to maintain any temperature you want—high, low or medium . . . \$8.80

THIS LAMP is typical of the many table and floor models now on display, all moderately priced.

The heat indicator makes baking delicious golden-brown waffles easier than ever. It changes from "Cold" to "Bake" when it is time to pour in your batter. When the steaming stops your waffle is done. The heat indicator also tells you when the iron is "Too Hot."

This new-style Hotpoint waffle iron is finished in highly polished nickel, attractively etched. Also has Calrod heating element. Specially priced at \$7.85 during February and March. It may be purchased "Little by Little"—85c down and \$1 a month for 7 months.

If any of your electric appliances aren't in first-class working condition bring them in to your Public Service Store. We'll make necessary repairs at a reasonable cost.
