congress January 2, two months, instead of 13 after the elections. The league supports the measure as a means of putting promptly into effect the will of the country.

Child Welfare Measures

Under the Child Welfare committee the league supports the Jones-Cooper bills, the bills asking for an appropriation of \$1,000,000, for the promotion of the hygiene of maternity and infancy. Each state is to be offered a share of this in proportion to its population which must be matched if it is accepted. This is the successor of the Sheppare-Towner Act and the Newton Bill. President Hoover in his message to congress urged the continuation of this work.

S. J. Res. 49, recommended by the senate committee on agriculture, and providing for federal operation of Muscle Shoals is the measure backed by the committee on living costs. This is similar to the one passed by the last congress and given a "pocket veto" by President Coolidge. The resolution provides for the continuation of government operation as required by the National Defense Act of 1916, and for the purpose of the development of the Tennessee river system for hydro-electric power production, navigation, flood control, and experimentation in cheap fertilizer. The league urged this as the best means of giving the public the advantage of the \$16,000,000 investment here.

In addition the league supports the administration in its request for speedy ratification of the Root formula for entrance into the World court, and its interest in the naval disarmament conference.

Libertyville Bandit's Record Is Being Probed

Police of Libertyville acting on information contained in a letter received by them last week and which they believe was provided by a spurned woman, inspired by a desire for vengeance, are checking up on the records of Alfred Landress, 35 years old, who is in the county jail awaiting trial on a charge of burglary at the home of J. E. Coleman in Libertyville.

The writer of the letter, whom the police believe is the former wife of the prisoner, charges Landress with a long series of crimes and tells of his success in escaping punishment for his misdemeanors due to his glib tongue.
