

H. P. WOMAN'S CLUB HEARS MRS. PARKER

Notable Lecture on Travel vs. College Education; Other Club Activities

Cornelia Stratton Parker was most enthusiastically received by the audience which heard her at the Highland Park Woman's club on Tuesday afternoon. Her lecture on "Travel versus a College Education" gave the conclusion of a mother who spent five years in Europe with her three children, traveling and preparing them for higher education in European schools and has brought them back to finish in American universities.

International Reputation

Mrs. Parker has a world-wide reputation as one of the keenest observers among American women on social, political and economic conditions. She is a profound student of and authority on psychology, especially child psychology. Mrs. Parker is, too, a noted adventurer into the hidden places, as well as over the beaten pathways of the world; insatiably curious about all places, all peoples, and all things.

After the death, in 1918, of her husband, Professor Carleton H. Parker, who was distinguished for his work in applying psychology to labor problems, Mrs. Parker took up her job as double parent and breadwinner. Since then she has been a graduate student, and for one year an assistant in the Department of Economics in the University of California. She has written books, and articles for such magazines as Atlantic Monthly, The Survey, Harpers, Ladies Home Journal. Among her books are, "Working with the Working Woman"; "Ports and Happy Places"; "An American Idyll"; "The Casual Laborer"; "Jenny the Joyous"; "A Daughter of Tan."

New Book Soon

"Making Europe Over" is the title of the book which will appear soon and to which Mrs. Parker referred in her talk.

"The Scotch Twins"

"The Scotch Twins," presented by the Children's Theatre of Evanston under the direction of Miss Winifred Ward, was a most delightful play for children. It was a joyous interpretation of Lucy Fitch Perkins' story which was dramatized by her daughter, Eleanor Perkins. This play was the last of the splendid group of three plays for children sponsored by the Literature committee of the Fine Arts department.

Byas is known to a great host of people in Highland Park and has many close friends in this vicinity. He has been presiding elder for a period of eight years in the Chicago area. Mr. Byas has proved himself to be a very able leader and executive in the work of the church. His counsel and advice indicate that he has a keen understanding of the needs and the opportunities of present day church activity. His interests in the great work of the church are not limited by denominational lines for the past 15 years and more, he has been vitally interested and connected with the work of the Chicago Church Federation. At the present time he is keenly interested in helping to formulate a state-wide federation of all protestant churches in Illinois.

WOMEN VOTERS BACK WORLD COURT PLAN

League Urged to Study This and Other Measures Which Are Before Congress

At a recent meeting of the Highland Park Women Voters, Mrs. Constant Hopkins, president, read a letter from Miss Belle Sherwin, president of the National League, urging study of the federal measures sponsored by the league. Among these, is the World Court, about which there seems to be a great deal of confusion. A brief resumé may be of interest.

After the Senate voted the United States into the World Court some years ago, there seemed to be a deadlock. The other nations in the Court objected to the Senate's fifth reservation which said not only that advisory opinions should be public and all states concerned given a hearing, but that no advisory opinions should be entertained without the consent of the United States in cases where it has or claims an interest. Counter proposals were made which were not satisfactory to the state department.
