

GAS *for* Refrigeration

with

ELECTROLUX

THE AUTOMATIC GAS REFRIGERATOR

Silent, Perpetual Cold at Low Cost

CONSIDER THESE FACTS!

- 1 — Permanently noiseless.
- 2 — No mechanism to wear, to vibrate, to need oil.
- 3 — Lasts indefinitely.
- 4 — Free from all trouble.
- 5 — Perpetual, steady cold.
- 6 — Costs only a few cents a day.
- 7 — Plenty of ice cubes.
- 8 — Tested and endorsed by national authorities.

You'll find an ELECTROLUX display at our office. Come in and see it — find out first hand how simple and effective Electrolux Gas Refrigeration is. Or, if you wish, just telephone and we'll send a representative to tell you about the advantages of gas refrigeration and the Electrolux.

When ELECTROLUX comes to your kitchen your refrigeration problem vanishes forever. ELECTROLUX is operated with such a simple mechanism that there is nothing to make noise — nothing to wear out or cause any trouble whatever. A tiny gas flame, a small trickle of water and a harmless liquid refrigerant permanently sealed in a strong, one piece steel unit supply endless cold at low cost. Continuous, assured protection for foods and a plentiful supply of ice cubes are at hand in your kitchen when an ELECTROLUX is on the job.
