

## Small Home Contest to Be Feature of Better Homes in America Drive

The "Better Homes in America" national committee wishes to announce that there will be a small home contest, held during the campaign, April 27 to May 3, inclusive.

Homes that have been built within the past five years, not to exceed \$10,000.00 in total cost, will be admitted. This amount covers the cost of the house only and does not include the furnishings, land, garage or landscape costs.

The Small Home contest will be in charge of a sub-committee, under the national committee, of which Mrs. Howard G. Kornblith is chairman for the Highland Park district. This sub-committee is made up of the following: Harry Howe Bentley, Marshall Johnson, Dudley Crafts Watson, Xavier Vigeant and John S. Van Bergen, chairman.

The committee, through this contest, will endeavor to select the home that, in its opinion, has been best planned, most artistically arranged, both as to interior and exterior, is the most modern and thoroughly up to date, and in all represents the highest standards of the American suburban home today.

The contest is open to all home owners in the Highland Park district, and is not restricted to size or building materials. It is hoped that there will be many entries in the contest and that much enthusiasm will be aroused in the interest of the best possible home for the least possible expenditure of money.

All interested will please notify the chairman, Mr. John S. Van Bergen, at 234 Cedar avenue, Highland Park, in writing, of their intention of entering the contest, giving their name, address and telephone number. It will be necessary for the committee to personally visit all the homes contesting. The committee further wishes to state that it is not the intention that the contestants allow the public to enter and examine their homes, except on invitation.

## County Board Approves Road Improvement Plan; Bond Issue Vote April 29

With but two dissenting votes the county board of supervisors on Wednesday of this week approved two resolutions in the 37 mile road building program.

One resolution provided for the construction of 12 connecting links to main highways to be constructed out of refunds due the county from the state. Of this money \$600,000 is expected within a short time and \$400,000 at a much longer interval.

The second resolution provides for the construction of 37 miles of paving in the first and secondary road system to be financed out of a \$1,250,000 bond issue that will be retired from the gasoline tax. The bond issue vote will be taken April 29.

### Have \$150,000 Income

The income from the gasoline tax will be approximately \$150,000 annually. This is a minimum figure, according to members of the county board.

They base their predictions on the first return from the state. This covered a five month period, August, September, October, November and December, and returned \$71,591.18 to the county for road uses. The other seven months, it was pointed out, would bring the annual return to or above \$150,000.

In addition to this sum the county has \$52,000 to its credit from the defunct gasoline tax that became effective during the Gov. Len Small administration.

The Community Leadership Training school under the auspices of the Deerfield-Shields Township Sunday School association and conducted in the Highland Park Presbyterian church closed on Monday evening. Throughout the school the keenest interest was shown. Dr. H. C. Coffman, one of the faculty members, stated that in all the schools in which he had taught he had seen no greater interest nor a more appreciative group.

Following the closing class session a brief service of consecration was held. At that time 48 persons received credit certificates for completing satisfactory work. A few more certificates will be given to persons doing make-up work. The total number of credits granted is larger than in the average Leadership school and this is indicative of the high type of work done by both pupils and faculty members.

### Total Registration 110
