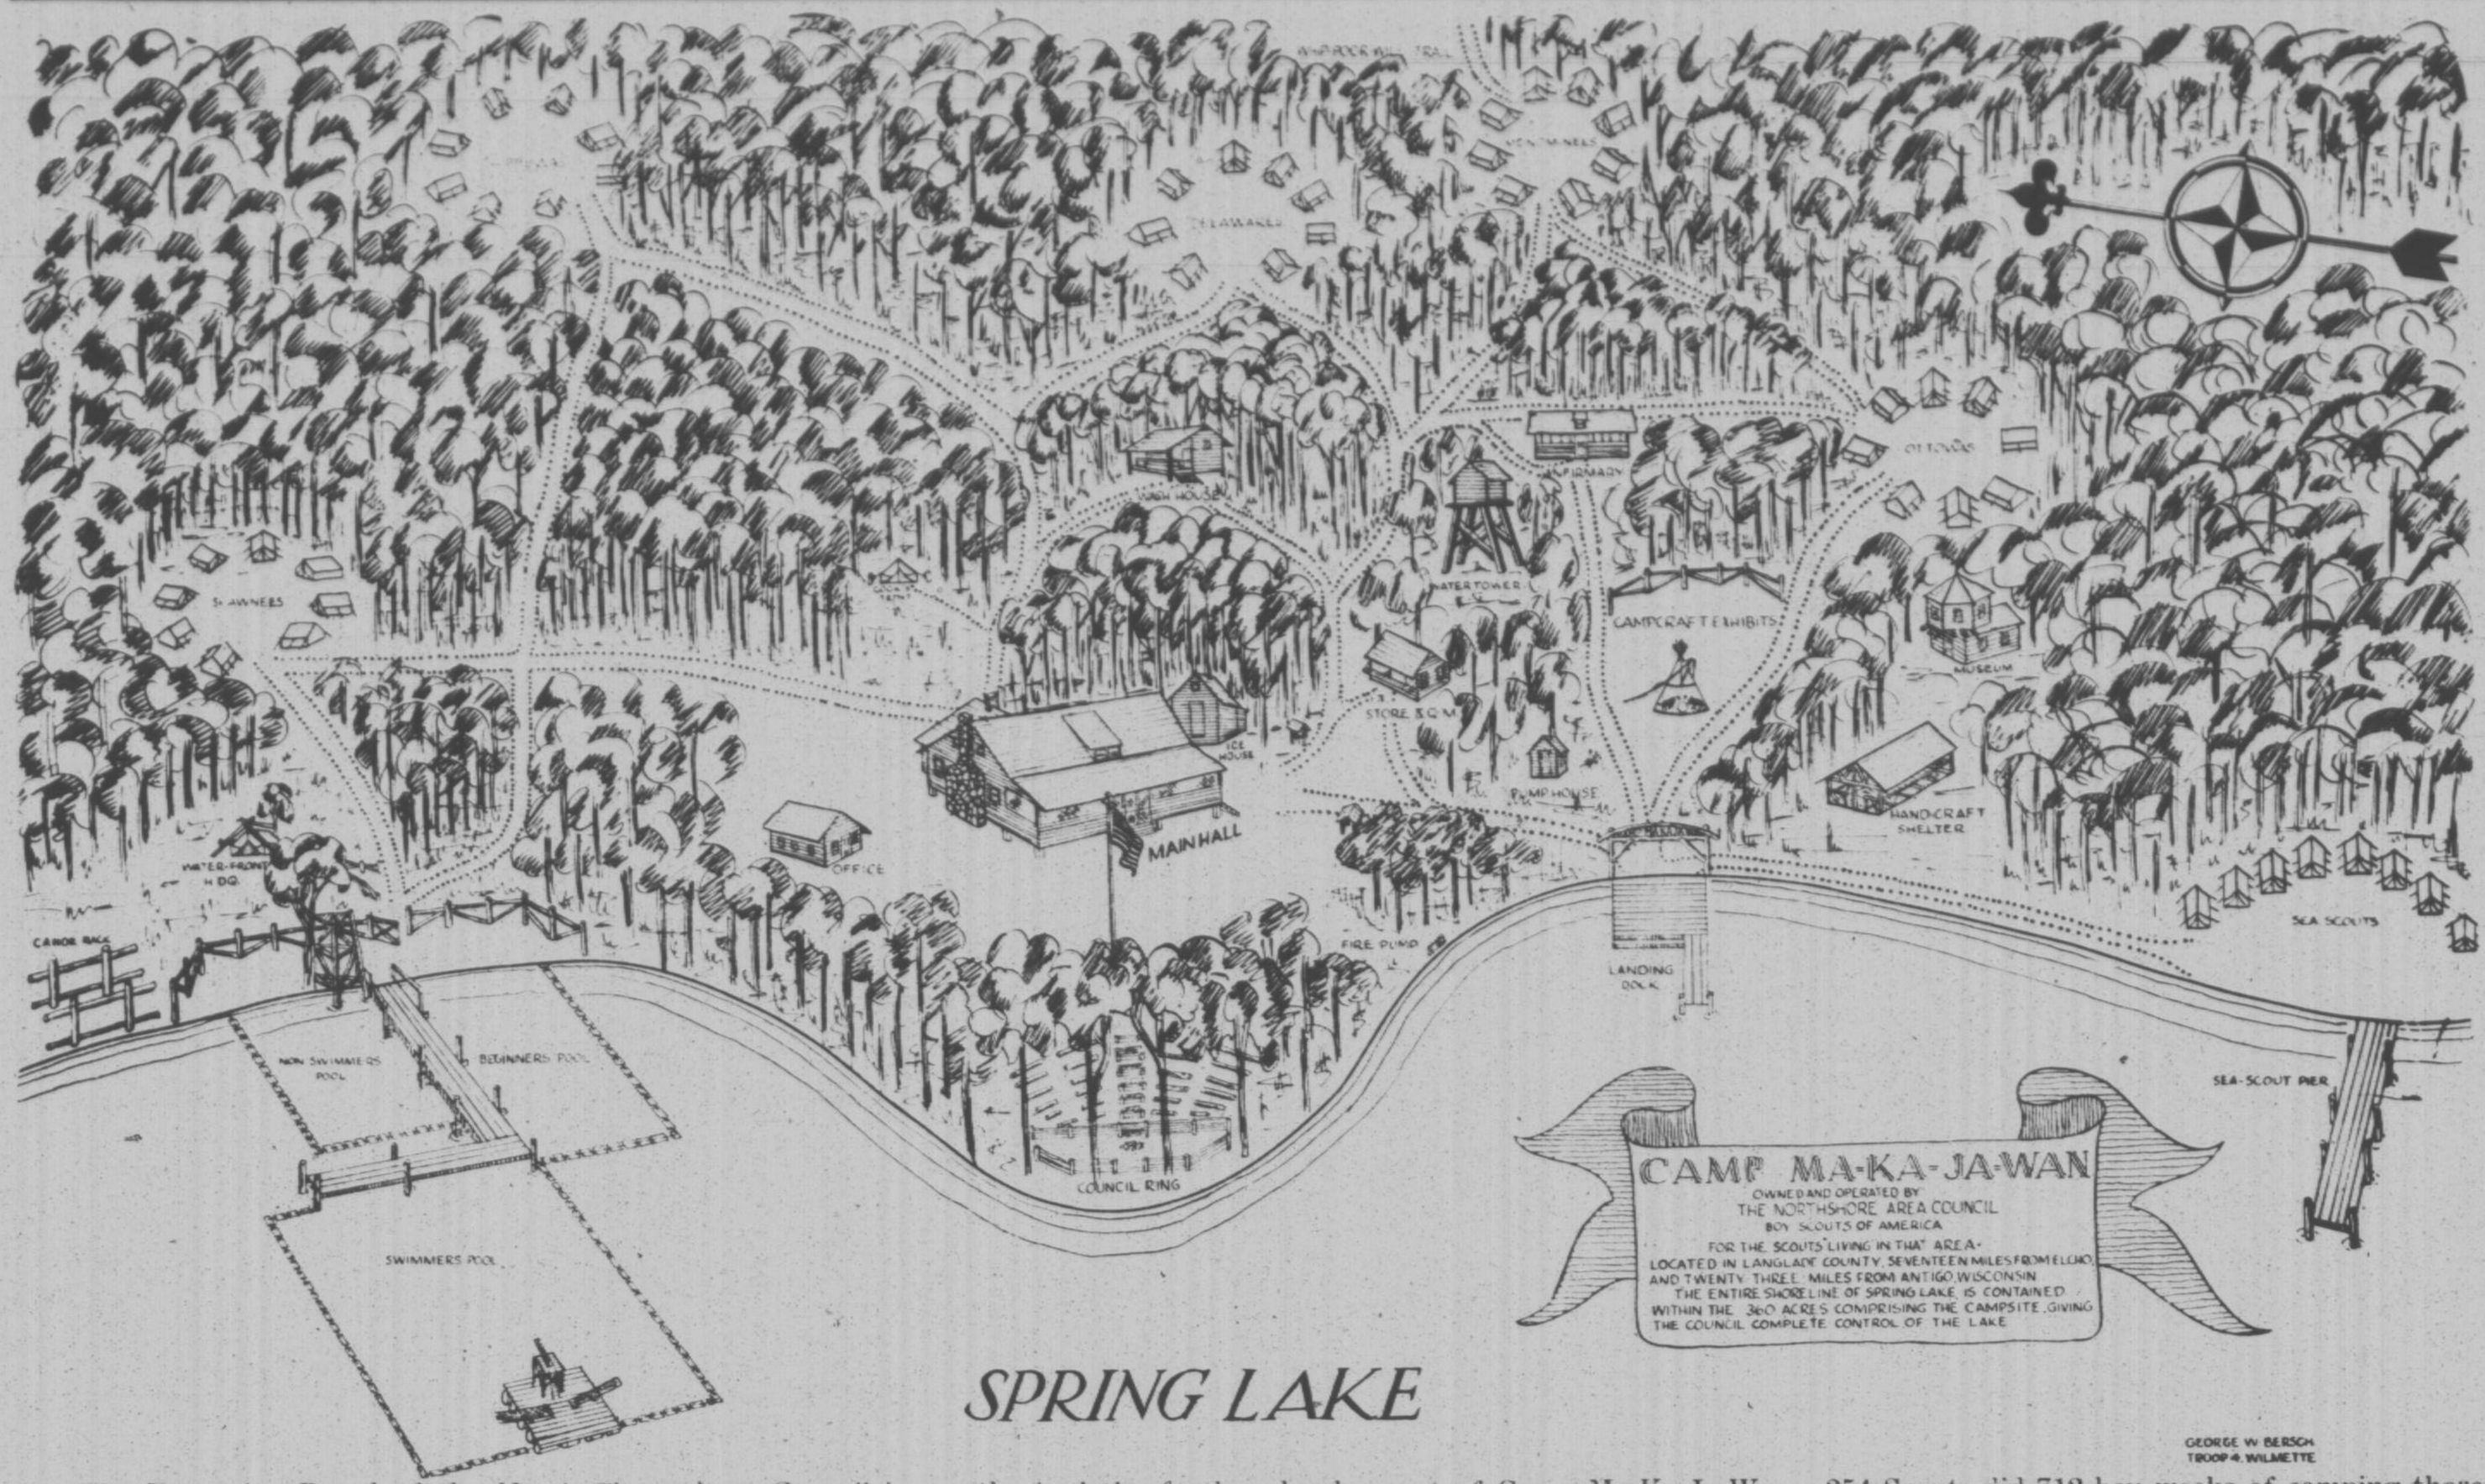
Expansion of Camp Ma-ka-ja-wan Authorized



SPRING LAKE

GEORGE W BERSCH
TROOP 4, WILMETTE

The Executive Board of the North Shore Area Council has authorized the further development of Camp Ma-Ka-Ja-Wan. 254 Scouts did 712 boy weeks of camping there last year. The camp will prepare for 1200 boy weeks of camping this year. This involves the construction of further buildings and the purchase of more tents, cots, dishes and other equipment. Scout officials and experienced campers who have seen the camp declare that they have never seen a campsite with superior natural facilities. Hundreds of parents who visited the camp last season were unanimous in declaring it as ideal. The camp is unique in that a large number of troops attend under the leadership of their own scoutmasters. Next year the development of a camping place across the lake is contemplated where scoutmasters may take their families at a very minimum cost, while they are with their troops in the Scout camp.
