

WM. JOHN COOPER AT P. T. A. ON APRIL 10

High School Organization Secures U. S. Education Commissioner for Talk

Wake up, people of Highland Park, Lake Forest and Lake Bluff and listen to this! One of the biggest men in the country is going to speak here April 10.

No, he isn't a movie hero! He isn't one of Chicago's adored gangsters.

He isn't Yost or Rockne or Zuppke. The whole town would turn out to see any one of these. But will this enlightened community show the same enthusiasm for the man President Hoover appointed head of our Federal Bureau of Education?

Who He Is

William John Cooper, United States Commissioner of Education is the man.

"The High School and Democracy" is his subject.

Will the town turn out to hear him?

"Yes!", say the Parent Teacher associations of Ravinia, Lincoln, Elm Place, West Ridge, Deerfield, Oak Terrace, Lake Forest and Lake Bluff and Wilmett.

"Yes," say the Highland Park Woman's club, the Ravinia Civic club, the Lake Forest Woman's club, and the Lake Forest Day school.

Public Will Appreciate

These organizations all believe that you, the public, will appreciate the opportunity of hearing the man who is head of Education down at Washington. They believe it so thoroughly that they have raised over three hundred dollars to pay the expenses of such a meeting and they now offer it to you free of charge!

Call up your neighbor, get up a crowd, pass the word along to those who never read the local papers, and turn out April 10.

Now, let us tell you something about Mr. Cooper himself. Of course he has long been known in the educational world. Out in California, they have called him from one important job to another, two of the last ones being State Commissioner of Education, and Regent of the University of California. Where ever there has been a big job and a tough job, there was to be found William John Cooper.

Offer Fine Program of Attractions Next Week

Exceptionally fine program at Aleyon next week:

Zane Grey's first all-talking picture, "The Lone Star Ranger" a stirring melodrama of the Southwest, with a talented cast headed by George O'Brien and Sue Carol is Saturdays attraction at the Aleyon.

Thrills galore are in store for all in S. S. Van Dine's exciting all-talk-Case" which will be shown Sunday evening mystery "The Bishop Murder and Monday. This is reputed to be the most unusual murder drama yet filmed and will keep you guessing till the very end. Basil Rathbone, Leila Hyams and Roland Young are the leading players.

Crashing from its moorings in the painted dome of the Paris Opera house, a six-ton chandelier dropped on the heads of a fashionable audience during the performance of "Faust." This is the climax of the scenes in the opera house in Lon Chaney's "The Phantom of the Opera" showing next Tuesday and Wednesday. Talking and Sound has been added, which increases the entertainment value of Lon Chaney's outstanding success, many times.

Richard Dix appears in his latest and by far his best all talking picture, "7 Keys to Baldpate" next Thursday and Friday. The talking screen drama, adapted from the sensationally successful George M. Cohan play, which was based on Earl Derr Biggers' novel, presents Dix as a writer who encounters an amazing night of adventure in a deserted inn while on the quest of a place of solitude in which to work. Dix is supported by an excellent cast including some of the veterans of the Broadway stage presentation.

Worst Snowstorm in Years Blocks Traffic; Streets Passable Here

What is said by old residents to be one of the most severe March snowstorms in many years visited this section Tuesday and Wednesday, and traffic on roads and railroads was more or less hampered and in many instances, altogether halted at times by the drifts which were piled high in many places by the heavy wind which accompanied the blizzard. In Highland Park the streets were kept open and while everything was considerably slowed down by the bad weather, no insurmountable obstacles were reported, but paved roads in the vicinity were in many instances reported blocked and impassable Wednesday. In Chicago traffic was almost at a standstill, it was reported. Chicago papers claim that the snowfall this week exceeds that of Jan. 6 and 7, 1918, when over 14 inches fell, whereas the present fall measures about 17 inches on the level.
