

## MANY FINE GARDEN DISPLAYS AT SHOW

(Continued from page 3)

pools etc. Rare specimen flowers and plants from all over the country will be arranged in a spectacular setting. Commercial exhibits of many kinds, including equipment and material for flower culture will be on display.

Owing to the greatly increased exhibition space, the competitive exhibits staged by the Garden Club of Illinois have been very much enlarged and many new features have been added.

### Porches and Garden Gates

Two of the new exhibits arousing a great deal of interest are the "Porches" and "Garden Gates." There will be 10 of these porches, each 10x12 feet, to be decorated and furnished by different garden clubs, and to be judged on practicability and flower arrangement. The Ravinia Garden club has entered this competition, and the committee in charge is busy with plans. Working on this porch offers a great deal of opportunity for displaying decorative ability, and Mrs. Robert McKnight, the chairman, has many interesting ideas in mind. Working with her are Mrs. F. C. Atwill, Mrs. M. Hardacre, and Mrs. Wm. Ross.

The "Garden Gate" presents a little different problem, but one equally as interesting. Each will occupy a space 6x12 feet, and show a pathway and planting beyond. There will be 20 of these exhibits, and an unusual gate, and artistic planting will count a great deal in the judging. The Ravinia Garden club has also entered this competition, and the committee in charge is Mrs. F. Gault, chairman, Mrs. R. A. Bryant, Mrs. E. E. Leonard, and Mrs. R. G. Maws.

Tickets for the Central States Garden and Flower show are still available until March 31, through members of the Ravinia Garden club, at a worthwhile saving.

The Highland Park Garden Study club, the Deerfield Garden club, and the Bannockburn Garden club are also having exhibits at the Central States Garden club.

## Girl Scouts

### Plan for Camp

Irresistible days occur almost any season of the year when a desire makes in every girl's heart to go adventuring over the hill, to heel the soft turf under foot, to smell the fragrant wood fire and to get into friendly touch with nature's enchantments.

In joyous answer to this call the Girl Scout prepares at this time of the year for her coming camping season. The Girl Scouts of Highland Park attend Camp Hickory Hill operated by the Des Plaines council of Girl Scouts, Inc. It is situated on the shores of Rice lake, four and a half miles from Edgerton, Wisconsin. Rice lake is excellent for swimming, boating and fishing, is spring fed, Government owned and is about three miles long and three quarters of a mile wide. The land is wild and rugged, affording splendid opportunity for nature study, woodcraft, pioneering and plenty of opportunity for good hiking.

All registrations for camp must be turned in by April 1, so will all Girl Scouts who are interested please attend to this at once. Registration blanks may be obtained from the Girl Scout captains and they will also be glad to answer any questions relative to camp.

### First Aid Course

The evening group of Troop No. 3 of Lincoln school began a course of study in first aid on February 27. The course is given under the able direction of Mr. Whitelaw of the North Shore lines and is being greatly enjoyed by all. Artificial respiration by means of the Schaefer Prone Method was taught the first evening. Since then the girls have been working with triangular bandages. Last Thursday evening Mr. Whitelaw was not able to be present so the girls took this opportunity to review what they had learned in the three previous meetings.

The afternoon group of Troop 3, under the direction of Mrs. Davidson is working on second class work and some of the girls are ready or almost ready for investment as second class scouts.
