

Women's Committee Sunset Valley Golf Club Plans Luncheon

(Continued from page 4)

cards, and a general good time with some surprise will be the features of the day.

The first official tournament will be on June 6 with bi-weekly events following the remainder of the season. Don't forget the date, Friday, May 9.

The members of the committee are all live wires which means success. Everybody get on the band wagon—its going over big, and by the way, do you know the North Shore Open will be a history making event in Highland Park this summer and the ladies are going to help make it such.

Changes are being made in the club house which will be materially beneficial. When the new men's locker room is completed the present men's locker room will be the Ladies' locker room. Being situated on the second

floor makes it ideal for them. The present ladies' locker room will be used by transients.

The men composing the Sports and Pastimes and Publicity committees will meet again April 1. Those present at the last meeting were: E. Skidmore, Paul Udell, C. H. Kruger, Bob Grinnell, Art Olson, R. C. Zartman, H. A. Wampler, F. W. Russo, Tom Kelly, C. C. Mowbray and Edw. M. Laing.

C. H. Kruger and Paul L. Udell are giving valuable assistance in preparing the program pamphlet for the North Shore Open. It will be some surprise.

The attendance and interest shown proves beyond a doubt that Sunset Valley Golf club has men that are workers and can put over anything they attempt.

While the old golf bug is having a little slumber look over your clubs and get them in shape. You are going to have some fine fairways to play on and some new holes that will interest you.

CIVIC CALENDAR

April 6 Final Date for Compensation, Disability Claims, Legion Announces

Monty Rasmussen, Lake county service officer of the American Legion has received the following report which he deems of great importance to the world war veterans, from Lester R. Benston, department service officer:

Under the World War Veterans' Act, evidence in support of claims for service-connection for all disabilities other than nervous mental diseases, spinal meningitis, active tuberculosis, paralysis agitans, encephalitis and dysentery must be filed prior to April 6, 1930. This covers all cases excepting where there is a record of the disability while in the service. April 6, 1930, is also the final date for making original claims for compensation. Section 206 and 209 of the World War Veterans' Act is a provision covering this limitation.

The so-called Johnson Bill now before congress which has been sponsored by the American Legion provides for a repeal of Section 206 and 209. When this bill will be favorably acted upon by congress is problematical, and all veterans who have pending claims, or who are planing on filing a claim should be warned of the limitations for their own protection.

It is hoped that veterans can protect themselves against any unnecessary delay and confusion in their claims, by taking whatever action is necessary prior to April 6, 1930.

At New Trier April 7

Angna Enters

The mere announcement of the appearance of Angna Enters on April 7 at New Trier high school auditorium in a benefit for the musical and dramatic activities of the school has already aroused great interest along the north shore.

Those who are fortunate enough to have seen Miss Enters before, whether once or many times, are already buying their tickets to insure choice seats. Tickets are obtainable at Gsell's drug store.

"Of Miss Enters the London Era said: 'She is actress, dancer, and supreme mimic in one and holds her audiences in the hollow of her hand.' Paris says: 'She is an extraordinary artist, an immediate, radiant success.'"

"Miss Enters herself says she is between Scylla of acting and Charybdis of dancing. The actss' call her a dancer and the dancers call her an actress. An American critic says of her that she displays the greatest theater sense he has encountered in the theater in years."

N. W. Tracks in Kenosha to be Elevated, Report

Work on the elevation of the Chicago and Northwestern railway tracks through the city of Kenosha must be started within 30 days and completed by December 31, 1932, according to orders issued last week by the Wisconsin Railroad commission. There will be eleven subways under the tracks at various streets through the city, and in addition there will be three extra pedestrian subways.

The railway company is to pay all construction and maintenance costs while the city of Kenosha pays the cost of changing and paving streets and sidewalks. Where the city street car system must make changes, they will be made at the cost of the street car company.
