FOOTBALL SCHEDULE
FOR 1930 COMPLETED

Having succeeded in getting practice games with Thornton, Waukegan, and Waller high school of Chicago, Coach Peel, Deerfield-Shields high school, announces his 1930 football schedule complete.

Although Deerfield-Shields has not played in any athletic contests with Waller for a number of years, Coach Peel thinks they will offer some good competition.

Both Thornton and Waukegan are usually put on the schedule every year. Last year Deerfield beat Waukegan 34-0, but the year before they beat us by a score of 6-0. Two years ago Thornton won from Deerfield and last year they were not on the schedule.

The league games which will be played away from home are with Morton and Evanston, while the Oak Park, New Trier, and Proviso games will be played on our field.

1930 Football Schedule

- September 27—
Thornton, there.
- October 9—
Waller (Chicago), here.
- October 11—
Oak Park, here.
- October 18—
Proviso, here.
- October 25—
Morton, there.
- November 1—
Waukegan, there.
- November 8—
Evanston, there.
- November 15—
New Trier, here.

COACH DICK HANLEY
TO SPEAK TO BOYS

Coach Dick Hanley of Northwestern university will talk to the boys of the Deerfield-Shields high school at a special Boys club assembly on April 11.

Hugh Seyfarth, captain of last year's football team, and Roger Taylor, president of the senior class, were in charge of securing Coach Hanley for the assembly.

Woman Candidate for
Legislature, 8th Dist.

Mrs. Grace F. Bairstow, of Waukegan, candidate for state representative in the 8th senatorial district comprising Lake, McHenry and Boone counties, is confident that a woman candidate is no longer a novelty to the voters but is considered on the same basis as a man seeking public office.

In her contest against eight men she is confident of being one of the three nominees April 8.

"I am interested in taxes, farm problems, municipal affairs and problems that go to improve that general welfare of the state and community. At the same time I would like to work for the betterment of the district and state in the general assembly. I believe my industry and loyalty to the office would make me a competent legislator" Mrs. Bairstow said.

HISTORIC RELICS
AT CAHOKIA PARK

State Has Erected House Sheltering Collections; Many Rare Items

The relic house at Cahokia Mounds Park located on Route 11 about four miles east of East St. Louis, which has recently been constructed and opened to the public is attracting daily hundreds of visitors, including archaeologists and students.

Of the three thousand lineal feet of case space for housing Indian relics, over half has been filled by enthusiastic collectors interested in the welfare of the park. Several requests were made to the State of Illinois from individual collectors asking the privilege of stocking the cases completely. H. H. Cleaveland, director of the department of Public Works and Buildings, felt more interest would attach to the exhibits if many collectors were allowed the privilege of placing a small part of their wonderful collections in the cabinets.

Exhibits from Collectors

On view are parts of exhibits from the following well-known collectors of Indian relics:

Addison P. Throop, East St. Louis; William Herrington, French Village; J. A. Rench, Greenville; Ben Woesthaus, French Village; Miss Lenore Vermillion, East St. Louis; Morris Barton, Collinsville; O. A. Schneider, Collinsville; William E. Herrington, East St. Louis; Irvin Peithman, Irvington, and Edward W. Payne, Springfield.

Lee E. Hill, ethnologist, who has for years been in the employ of Mr. Edward W. Payne has been secured temporarily by the State to arrange and classify the exhibits.

Many Rare Relics

Among the many rare Indian relics to be seen are Celts, discoidals, flints, war clubs, mortars, pipes, spears, axes, scrapers, sinkers, skulls, hammer heads, hoes, chisels, daggers, drills, pottery, rubstones, etc.

Already a very creditable collection of the finest pieces of the Stone Age relics of this community have been gathered here and each week additions are made by collectors who are interested in Cahokia and who have done so much to have these mounds preserved by the State for the purposes to which the museum is dedicated.

Mr. Addison J. Throop writes, "The Cahokia group of mounds is the greatest prehistoric group of mounds, and I am proud that my State has acquired it for its preservation and I am glad to assist in any way toward the gathering of relics. The museum will be a great asset and I hope soon to see the time when it will surpass anything of its kind as the mounds surpass all others. This locality has furnished relics to almost every great museum in the civilized world and we will soon have a real collection safely housed at the park."

What's Wrong

The basic defect of co-operative marketing is in its conflict with human nature.—Farm & Fireside.
