

Snowstorm Does Much Damage in the County

With some half dozen summer cottages along the lake front at Zion in danger of being washed out into the lake, the Warren high school at Gurnee, and several other schools in the county, closed because of the storm, Wauconda snowed under with even sleighs stuck in the deep snow banks and motor traffic between Chicago and Milwaukee along the state highways completely paralyzed, Lake county spent the latter part of last week digging out from under a 43-hour storm that left 19 inches of snow on the level and drifts from four to six feet over many of the highways.

Aside from cripple traffic, the worst damage along the north shore occurred at Zion where it was reported that monster breakers had worn away a 7-foot bluff at the beach and waves were pounding against a row of summer cottages belonging to Zion people. At least six of the cottages were threatened with being tossed out into the lake as water from five to six feet deep was swirling about the piles on which the cottages were built.

A thousand-foot stretch of sidewalk from the north limits of Zion to the refreshment pavilion on the lake front was completely washed away, Waukegan papers report.

Libertyville Board to Act on Annexation

The petition asking to be annexed to Libertyville filed in County court by the residents of the territory east of the village, was ordered submitted to the village board of trustees for final action, by Judge Perry L. Persons last week.

No objection to the annexation is expected from the village board and the land will probably be admitted into the corporation without the necessity for calling for a general referendum.

Used cars are traded in on approximately 50 per cent of the new cars sold, according to the Chicago Motor club.

Charles J. Lehmkuhl, Highland

Park. Inventory and waiver of widow's award approved.

Grace Block Rosenthal, Highland Park. Sale of certain stocks authorized.

Spain has only two manufacturers of motor vehicles, according to the Chicago Motor club.

CONTROLLABLE
FROM INSIDE THE CAR
... TURNS IN ANY DIRECTION

IT spots curves before you reach them. It gives you brilliant, clear vision behind when you're backing. It illuminates the edges of the road out of range of the headlights. It finds house numbers and road signs. Does more than any driving light ever did. It's the controllable, inside-operated Lorraine. Built with the care and precision of a telescope—the durability of a siege gun. Beautifully contoured and richly chromium plated. Gives a jaunty daytime distinction to any car.

Selected accessory dealers everywhere install Lorraines quickly. Prices \$15, \$25 and \$35. Lorraine Corporation (a Division of Van Sicklen Corporation), Elgin, Illinois.
