

MILITARY TOURNEY PLANNED FOR JUNE

Maj. Gen. Parker of 6th Corps Area Announces Spectacular Feature

Major General Frank Parker, commanding general, of the Sixth Corps Area, announces that arrangements had been completed with the Chicago South Park commission for the use of the Grant Park stadium, Soldier Field, Chicago, for a military tournament and exposition, to be held this summer from June 21 to June 29, inclusive.

While details of the program for the tournament have not yet been completed, preliminary announcement from headquarters indicates that the event is to be the most spectacular military demonstration ever staged in Chicago. Airplanes, tanks, artillery, infantry, cavalry, chemical warfare, signal corps—in fact every combatant branch of the service, is to take part in the staging of the tournament and exposition.

Chateau Thierry Replica

Arrangements have been completed for the presentation of the historic Chateau Thierry action in a most realistic manner, utilizing a tremendous stage setting depicting the actual Village of Chateau Thierry. In this program feature, all branches of the service will be employed in close similarity to the actual conduct of this famous American engagement during the World war. Fireworks and searchlights will increase the realistic and vividness of the spectacle.

Arrangements are being completed for the participation in the tournament of various large national groups in Chicago. Pageants, drills and other exercises in native costumes of the different nationalities will be given on various evenings. More than 60 army airplanes will take part in the air show which will be a part of the tournament. The tournament and exposition will be presented once each day in the evening, opening with the evening of June 21 and closing on the night of June 29.

The entire receipts from the tournament and exposition, after expenses are met, will go to the Army Relief society, an organization that assists widows and orphans of regular army soldiers.

March Temperature Generally Was Balmy, Says Official Report

With the maximum temperature for the month of March registered at 75 degrees on the 16th, John O. Laux, official weather observer for the U. S. Department of Agriculture, at Waukegan reports that March as a whole was fairly balmy. The lowest temperature was 20 degrees on the 19th.

The mean temperature for the month was 32.2 degrees or a bit above freezing on an average, and while the prevailing winds for the month drifted in from the northwest, there were 14 sunny days and 10 were only partly cloudy while 7 remained cloudy for the daylight hours. Snow covered the ground for only 9 of the 31 days of the month.

A total precipitation of 1.21 inches of rain was registered for the month while the heaviest snow of the winter fell during that period.

March 1929 failed to equal the same month in 1930, according to the records so far as pleasantness is concerned. The highest temperature last year was 68 degrees on the 7th of the month, there was a drop to only 2 degrees above zero on the 7th, and 11 days were cloudy, 7 partly cloudy and 13 clear, although the prevailing winds were from the south-west.

The storm that arrived on March 25 this year piled up a level of 16.9

inches in the Waukegan vicinity which was a record breaker, although this section was not so hard hit as was the Chicago area and the district to the south.

Evelyn Frances Wells of Libertyville, who has been contesting the will disposing of the \$125,000 estate of Anna R. Wells of Chicago, her great aunt, who died four years ago leaving \$100,000 to the Anti-Cruelty society, was awarded at \$10,000 settlement by the attorneys for the Anti-Cruelty society.

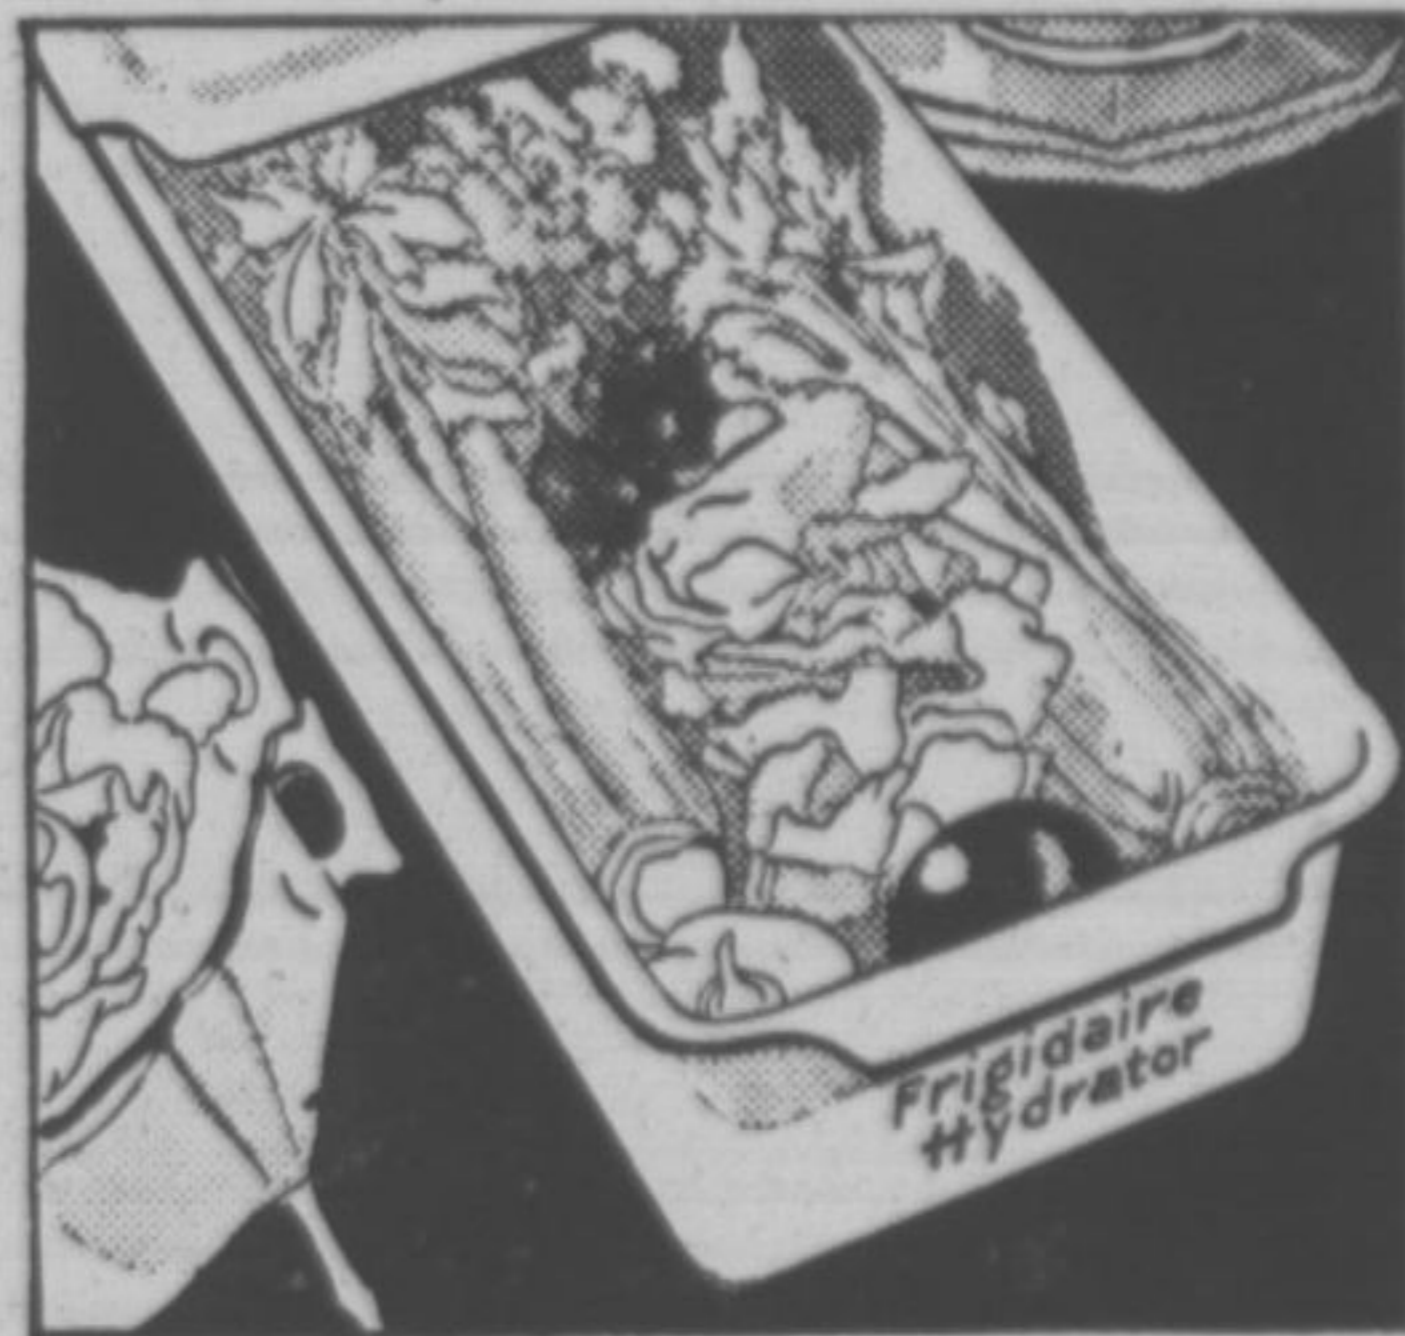

Woman Deputy Begins Sheriff Office Duty

Mrs. Robert Drysdale of 210 N. West street, Waukegan, last week became the first woman deputy sheriff of Lake county.

Mrs. Drysdale, a widow, was commissioned before County Clerk Lew A. Hendee and took over her duties immediately.

The sheriff assigned her to the work among juveniles and women prisoners.

*Wilted
vegetables
become fresh*

in the Frigidaire

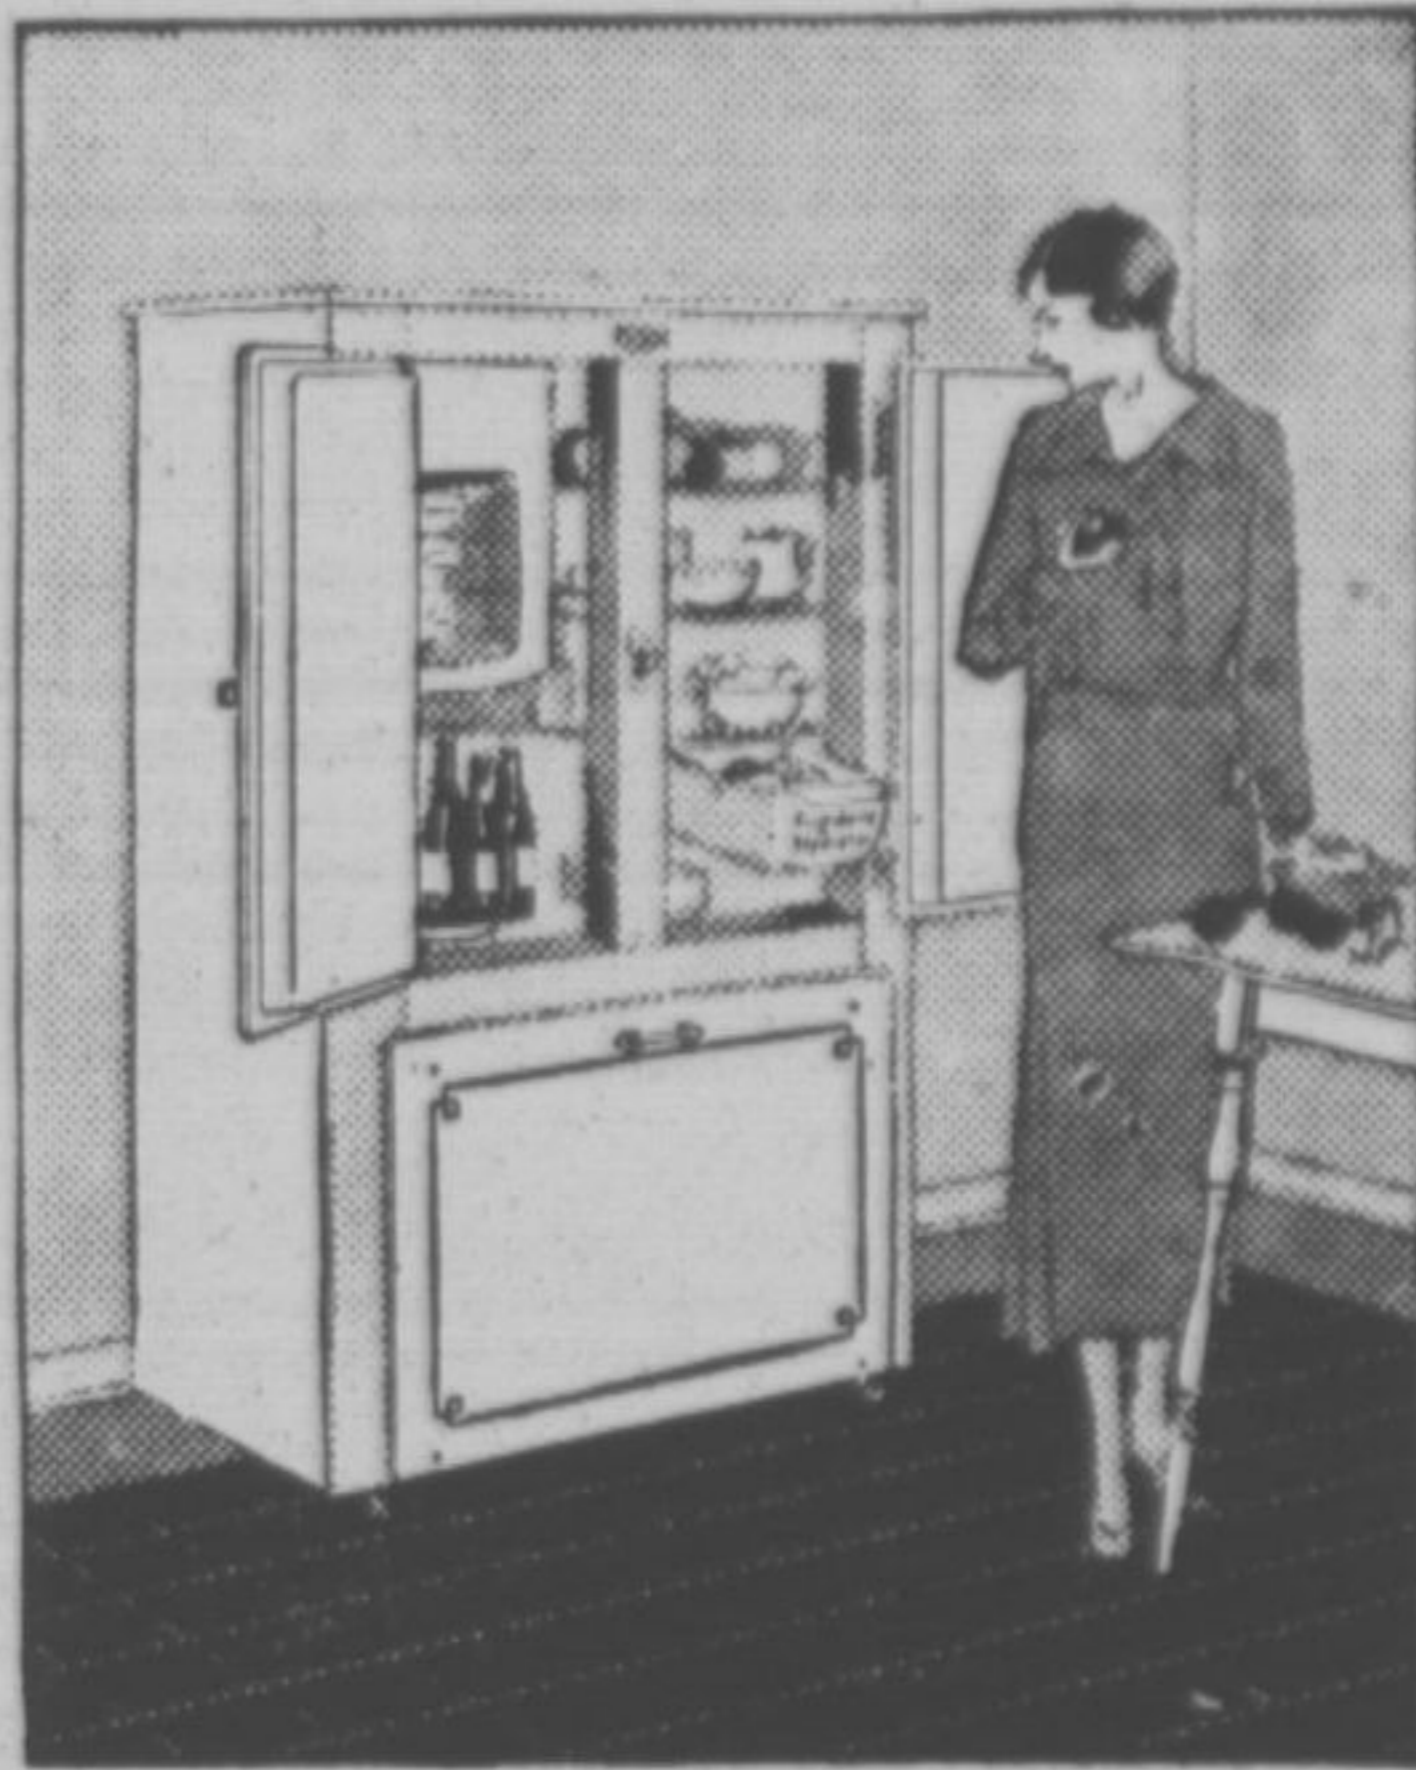

HYDRATOR

YOU can serve fresher vegetables—
more delectable salads than ever before
when you have one of the new
Frigidaire in your kitchen.

For every new household Frigidaire has
the Hydrator, a special compartment for
storing lettuce, parsley, celery, tomatoes,
radishes and greens of all kinds . . . If
vegetables are fresh and crisp when you
put them in, the Hydrator keeps them
that way until you want them. If they
are dry and wilted, the Hydrator restores
them to their original freshness and firmness
in a few hours' time.

In addition to the Hydrator, Frigidaire
offers the famous Cold Control, giving
you a choice of six freezing speeds in the
freezing compartment.

There is a Frigidaire for every home,
large or small. And any model may be

conveniently purchased the "Little by
Little" way over a long period of time.
