

for Economical Transportation

It's wise to choose a SIX!

After all, it is a perfectly simple matter to decide which automobile to buy. Only two questions must be answered to your satisfaction—

First: Which car gives the most for my money?

Second: Which car represents the soundest investment in satisfaction and pride of ownership?

Six-Cylinder Motor

In buying a low-priced car consider the following facts:

It is wise to choose a six-cylinder motor— for six cylinders are necessary to take out vibration and roughness. Six-cylinder smoothness will save the motor, the whole chassis, the body, the passengers, and the driver.

wearing pistons—crankcase ventilation—air cleaner. You can really have extreme economy and still satisfy your ideal of truly modern transportation.

Chevrolet economy is also the mark of Chevrolet sincerity in manufacture. To illustrate:

Chevrolet valves are readily accessible and adjustable. This saves replacing valves, and also makes it possible to *preserve* efficiency.

Fully Enclosed Brakes

A similar example is found in Chevrolet's molded brake lining—reducing the necessity of frequent replacement, and consequent expense.

Furthermore, there is a rear axle inspection plate on the new Chevrolet Six. This makes it unnecessary to take the axle apart to examine it or clean it.

Safety Gasoline Tank

With modern low suspension and extra wheelbase, the Chevrolet Six has excellent proportions.

Its impressive front view is distinguished by the genuine honeycomb radiator, another mark of modern cars.

The gasoline tank is in the rear, for safety and finer appearance.

Chevrolet beauty instantly says "Body by Fisher"—costly car style, with the permanent quiet of Fisher composite steel-and-wood construction.

Body by Fisher also gives you a genuine non-glare windshield, adjustable driver's seat, more space, deeper cushions, clearer vision, finer fabrics and fittings.
