SKYLIGHTS

Infinitely more light is given to top floors by means of skylights than it is possible to get from lateral windows. This is especially true in all factories and workshops. We build skylights or repair same, and attach air ventilators where necessary. Our prices are moderate.

Gurnee Restoration Association Planning Extensive Improvement

Announcement was made recently of plans to increase the facilities of the Gurnee Restoration Association, Inc., at Gurnee, Ill., through the addition of several new buildings. This has been made possible through increasing the capital stock from \$50,000 to \$200,000, according to Roy H. York, president of the association.

The Gurnee Restoration Assn. Inc., was formed several years ago for the purpose of providing a home for those wishing Christian Science treatment. Its growth has been so marked, it is claimed, that many persons seeking admittance have been refused through lack of accommodations.

In line with plans to increase the facilities an architect has been retained with instructions to prepare drawings for the proposed new buildings. Included in the new buildings will be an administration building and a number of individual cottages.

All buildings will be designed in the Old English style of architecture.
