## Goodson's Nut Shop Install Soda Fountain

Goodson's, the popular shop where nuts and other delicacies have been available for the last few months, will now serve ice cream and an attractive line of luncheon and tea specialties. A handsome soda fountain has been installed at 26 North Sheridan road, next door to the Highland Park postoffice, with other equipment added to insure a complete service for those to whom Goodson's has come to mean nuts and confections of high quality.

Although one of the young enterprises of this community, the Goodson shop has established a reputation far beyond the limits of Highland Park. Its salted nuts, all of which are prepared in the Goodson kitchens, have found steady customers as far away as the cities of the eastern and western coasts.

After a careful study of the ice cream market, Goodson's decided upon Shurtleff, made in the heart of the Wisconsin dairy district at Janesville. A fine variety of flavors in creams and sherbets will be carried, as well as many frozen specialties. This delightful shop is to be congratulated on the growth of patronage which has justified this expansion.

## Ravinia Woman's Club to Visit the Chicago Commons on April 23

About a month ago, through Miss Taylor's kind invitation, plans were made for members of the Ravinia Woman's club to visit the Chicago Commons, but on account of the terrible blizzard at that time, the trip was postponed. Another date has been set however, and the club members are planning to make the trip Wednesday afternoon, April 23.

There are always many interesting activities at the Commons, but Miss Taylor, who is in charge, expressed the wish that the club arrive before 2:30, so as to have the pleasure of visiting the English class and Mothers' club before tea. Later, there will be groups of children coming in from school.

Everyone remembers the picnic given last summer by the philanthropy committee, under the chairmanship of Mrs. E. E. Leonard, for the mothers and children of the Chicago Commons. To visit their settlement, and learn something about their activities and mode of living should prove both educational and interesting.

Located at 955 W. Grand avenue, the Chicago Commons is not a hard place to reach. The easiest route to follow is probably Sheridan road to Grand avenue and then directly west to the Commons. The trip promises to be a very pleasant one, and it is hoped that many are planning to make it.
