

There is one sure way to get greater value in a low-priced car today—choose a Six!

This greater value is instantly obvious when you drive a Chevrolet Six. You notice first of all its greater smoothness. In every gear and at every speed, there is a refreshing freedom from all the annoyances that are caused by vibration. There is no tremor in the steering wheel—no rattle in the floor boards—no rumble or drumming in the body.

In addition to the finer performance of its six-cylinder motor, Chevrolet gives you truly remarkable economy. Its six-cylinder smoothness saves the entire car—engine, chassis and body—from the strain and wear of vibration. This, of course, lowers the cost of maintenance and

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's prices include only reasonable charges for delivery and financing. Easy G. M. A. C. Terms.

assures a longer-lasting, longer-satisfying automobile.

From the standpoint of operating expense, Chevrolet is equally economical. No automobile surpasses Chevrolet in gasoline and oil economy. No car shows a lower expense for tires. And Chevrolet service is remarkably economical—Chevrolet flat rate charges including both parts and labor are the lowest in the Automotive industry on many service and repair operations.

Because of its modern engineering, Chevrolet also assures a high re-sale value—for its entire design is just as advanced as its six-cylinder valve-in-head engine.

Chevrolet gives you fully-enclosed, weather-proof, 4-wheel brakes. It gives you a modern fuel system—with

the gasoline tank mounted in the rear outside the body. It gives you four long semi-elliptic springs, mounted lengthwise in the direction of car travel. It gives you beautiful Fisher bodies built of combination hardwood-and-steel. It gives you a heavy, rigidly-braced channel-steel frame. It gives you a full ball bearing steering mechanism, an adjustable driver's seat, a Fisher VV non-glare windshield, and tilting beam headlights operated by a foot-controlled button.

Before you decide on any car in the low-price field, see and drive the Chevrolet Six. The more thoroughly you investigate, the more certain you are to conclude that it's wise to choose a Six—for value, for performance...and for economical transportation!

## Find Mammoth Bones Near Morton, Illinois

More evidence that the great northern hairy mammoth, the *Elephas primigenius*, once inhabited the prairies of Illinois, has been found at Morton, Ill., according to Frank C. Baker, curator of the University of Illinois Natural History museum.

Several teeth of the monster were found while excavations were being made for a brick and tile works.

About 15 records of these animals have been noted from Illinois, ranging from Alexander county on the south to Ogle county on the north, showing that the elephant was found at times all over the state. The recent discover at Morton is the first record found in Tazewell county.
