Much interest has been shown in the work of the high school orchestra during the school year because of the excellent work of its student members under the direction of Mrs. Helen Mayer Mannings, their director, who has been appointed to be in charge of the orchestra and stringed music department of the school for the coming year, as in the present session. State to Spend Large Sum in 1930 for Grade Separation, Report Says

During 1930, the highway division will spend a total of approximately \$2,000,000 for separating highway and railroad grades throughout the state. The railroads' share of the costs of these projects will be another \$2,000,000. In the Chicago metropolitan area, the combined expenditures of the state and the railroads for grade separation prospects will total about \$2,500,000, while the work downstate will cost approximately \$1,458,000.
