

MEETING

8:00 P. M.

AUDITORIUM

870 do for our schools in 1930

The citizenry here demands a **better** school system than is to be found elsewhere. Our children must have an education that will equip them to meet the demands of the vigorous, competitive and highly civilized society of the mid-twentieth century.

School laws of the mid-nineteenth century will not suffice under the changed conditions created by the tempo of our modern business and social life. Children today need a better education than their parents had, in order that they may be geared-up to meet the conditions that will face them in the years to come.

The Citizens' Committee on Grade School Educa-

tion urges all citizens interested in providing their children with the best education facilities to attend a mass meeting in the Elm Place Auditorium, Monday evening, June 2nd, at 8 p. m.

The Hon. B. F. Lewis, Mr. E. C. Wolcott, and Mr. R. Arthur Wood will point out our **needs** and methods to achieve them.

(Signed)

Citizens' Committee on Grade School Education in Elm Place and Green Bay District.
R. P. Sherer, Chairman
Phone, Highland Park 584.

EXECUTIVE COMMITTEE

R. P. Sherer, Chairman

Lester Olson
