

## DRAINAGE DISTRICT PLANS BOND ISSUE

To Call Special Election Soon; Seeks Means to Finance New Plants

Plans for the erection of a modern disposal plant on the North Flats to serve Waukegan, and the building of three other plants and enlargement of three plants in as many other communities in Lake county, including Highland Park, were drafted by the North Shore Sanitary district board in meeting last week. The board is considering the expenditure of \$1,500,000 in the establishment of these much needed sewage treatment plants.

### Largest in Waukegan

The board has decided definitely on the location of the proposed sewage disposal plant for Waukegan on the site of the present small plant on the North Flats. This has been done on the recommendation of the engineers representing the board and is contrary to the desires of the city administration of Waukegan who has insisted that the plant be located on the lake front at the foot of South avenue.

The type of the Waukegan plant, which is to be the largest of the series, has not been definitely determined by the board. Two plans are being considered, one provides for the erection of a plant at the cost of \$9,866,000 which will provide complete treatment for sewage, while the other plan calls for the installation of partial treatment of sewage in a plant to cost \$646,000.

### One at Cary Avenue

Under the plans, new plants will be erected at Cary avenue in Highland Park and Winthrop Harbor while additions will be erected at the plants now operating in North Chicago, Lake Forest, and Highwood. It is estimated that this work will represent a total cost of about \$500,000.

Work on all of the projects will be started within the next few months

if the plans of the board are carried out.

### Plan Bond Issue

In order to provide funds for the erection of the plants, the board will call a special election within the next month. Voters living in all cities and towns along the lake shore in Lake county will be asked to approve the issuance of \$1,500,000 in bonds to cover the cost of construction of the plants.

The resolution providing for the preparing of plans and specifications on the proposed new plants and addition was presented to the board by David T. Webb and seconded by Walter Atkinson.

## Artists of Ancient Egypt Were Noted for Gallantry to Women

The artists of ancient Egypt displayed a notable gallantry to women. In the portrait statues they ignored mother who hoped that her son would grow up to be a congressman or something?

Newspapers have commented a great deal on the fact that John D. Rockefeller of late has been giving out nickels instead of dimes. Maybe he is trying to help the metal market by putting bigger chunks in circulation.

New York City now has a Cat club. Wonder if they play bridge?

We bet President Hoover's reaction to his new grandchild was, "Well, thank the Lord, I don't have to get it ratified by the Senate." — Ohio State Journal.

The true value of horse sense is clearly shown by the fact that the horse was afraid of the automobile during the period in which the pedestrian laughed at it.—Louisville Times.

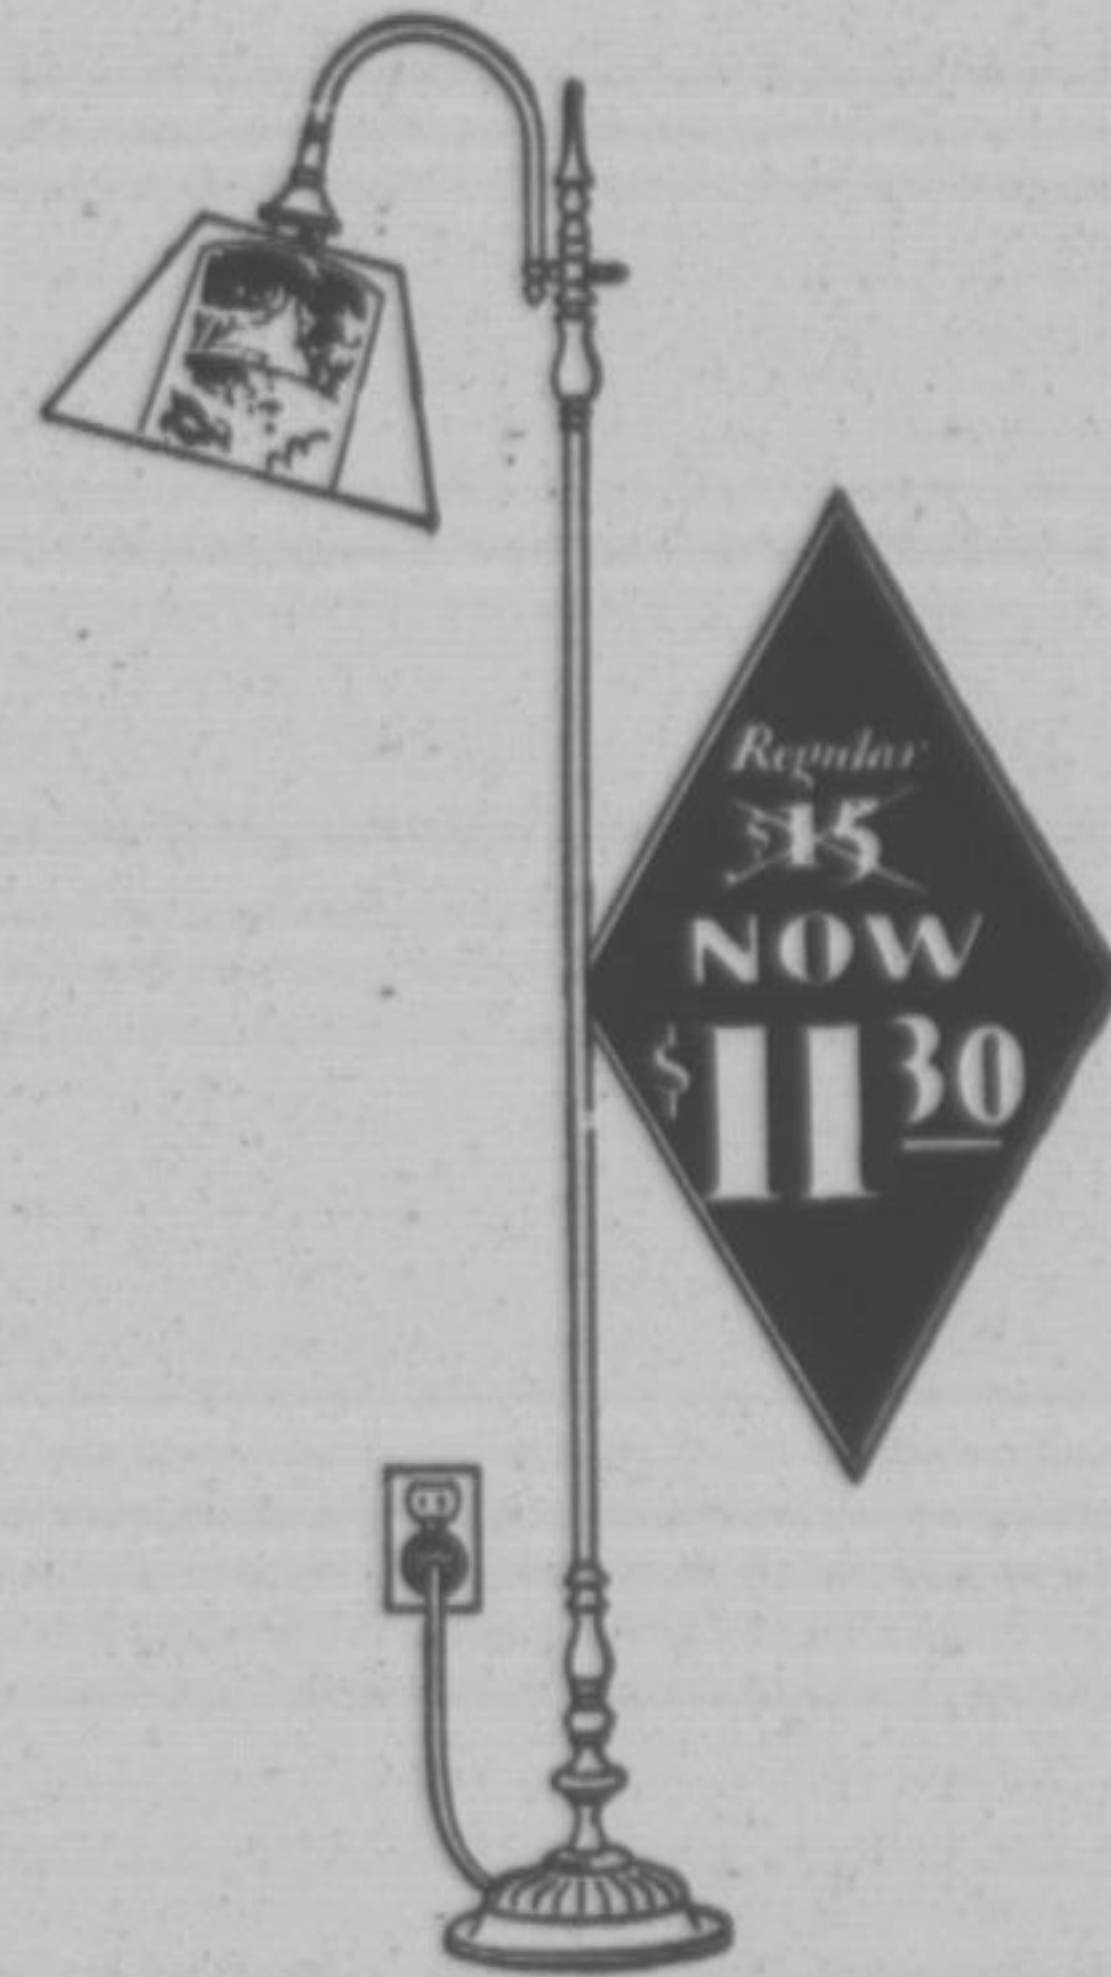

An exhibit of the various minerals which have been found useful in radio communication is a feature of Field Museum's economic geology collections.

# THE SPECIAL SELLING OF LAMPS

The same bargain prices that opened our annual sale of lamps last month have been continued into June. Interesting displays of both floor and table models to make selections from. All are of recent design and all are marked unusually low.

Three-candle floor lamp with plated bronze base and silk shade. Only \$17.65.

Typical of the many attractive bargains is this plated bronze bridge lamp, its parchment shade decorated with a colored print, at only \$11.30. Popular "indirect lighting" lamps for diffusing bright light over the room are specially priced at \$12.75.

All lamps may be purchased the "Little by Little" way.
