## Why Not Own One?

Is it possible that you and your family have been depriving yourselves of all that Cadillac and La Salle can give you—because you believed they cost more than you could reasonably afford?

Let's face the facts.

G. M. A. C. Convenient Terms are only a little more month by month than what you would have to pay for cars of lesser quality.

Additional costs for gas and oil would amount to less than Twenty Dollars a year. Cadillacs and La Salles are so sturdily built that they require little attention. And the systematic inspection and tuning-up provided by Cadillac Service keeps these charges to a surprisingly low minimum.

Add to these economies the fact that Cadillac or La Salle gives you many thousands of miles more service, with no replacements. Considering all factors, the FINAL COST will be no more than that of cars priced far lower—and delivering far less satisfaction and enjoyment.

The above is a plain statement of facts—which we shall be only too happy to prove if you will give us the opportunity.

Speaking of the anti-noise campaign, is anything being done to abolish the automobilist who toots his horn all the time traffic is being held up by the red light?

### Chrysler Town Brougham

This beautifully appointed town car has been driven less than one hundred miles. The custom body by Le Baron with the incomparable Chrysler chassis originally cost \$4400. This model has six wire wheels, fender wells, trunk rack, etc., is finished in jet black with red trim. The tan broadcloth upholstery presents an unusually distinctive interior.

This car must be sold at once at a fraction of its cost in order to settle an estate. Write or call, all mail inquiries given prompt attention. Write—
