

## ISSUE LAST CALL IN SCHOOL FUND DRIVE

(Continued from page 3)

will be an achievement in citizenship and public-spirited support of educational facilities seldom equalled in any city throughout the country. Those who have subscribed to this fund have demonstrated their interest in the youth of our city and the measure of progress made in these schools in the next three years will be due largely to their efforts and generosity.

The committee members have been greatly impressed with the willingness with which citizens have rallied to the call for aid, regardless of their personal means, and the fact that appeal has been so liberally responded to by the people generally indicates how great an interest they have in the welfare of the children of the city and civic progress in general.

### Greatly Encouraged

Everybody connected with the campaign is greatly encouraged and are assured that this last call will result in the drive going over the top successfully. The reward for efforts and money spent will be in the increased facilities of the schools and the greater opportunities to be afforded their pupils for training and development into useful citizens. This fund will provide for them educational advantages second to none, and the result will be of far reaching benefit to the community as a whole, it is believed. If you have not subscribed, do your bit now.
