

Laundering isn't so bad, after all—

SPEED UP THE WASHING WITH A MODERN WASHER

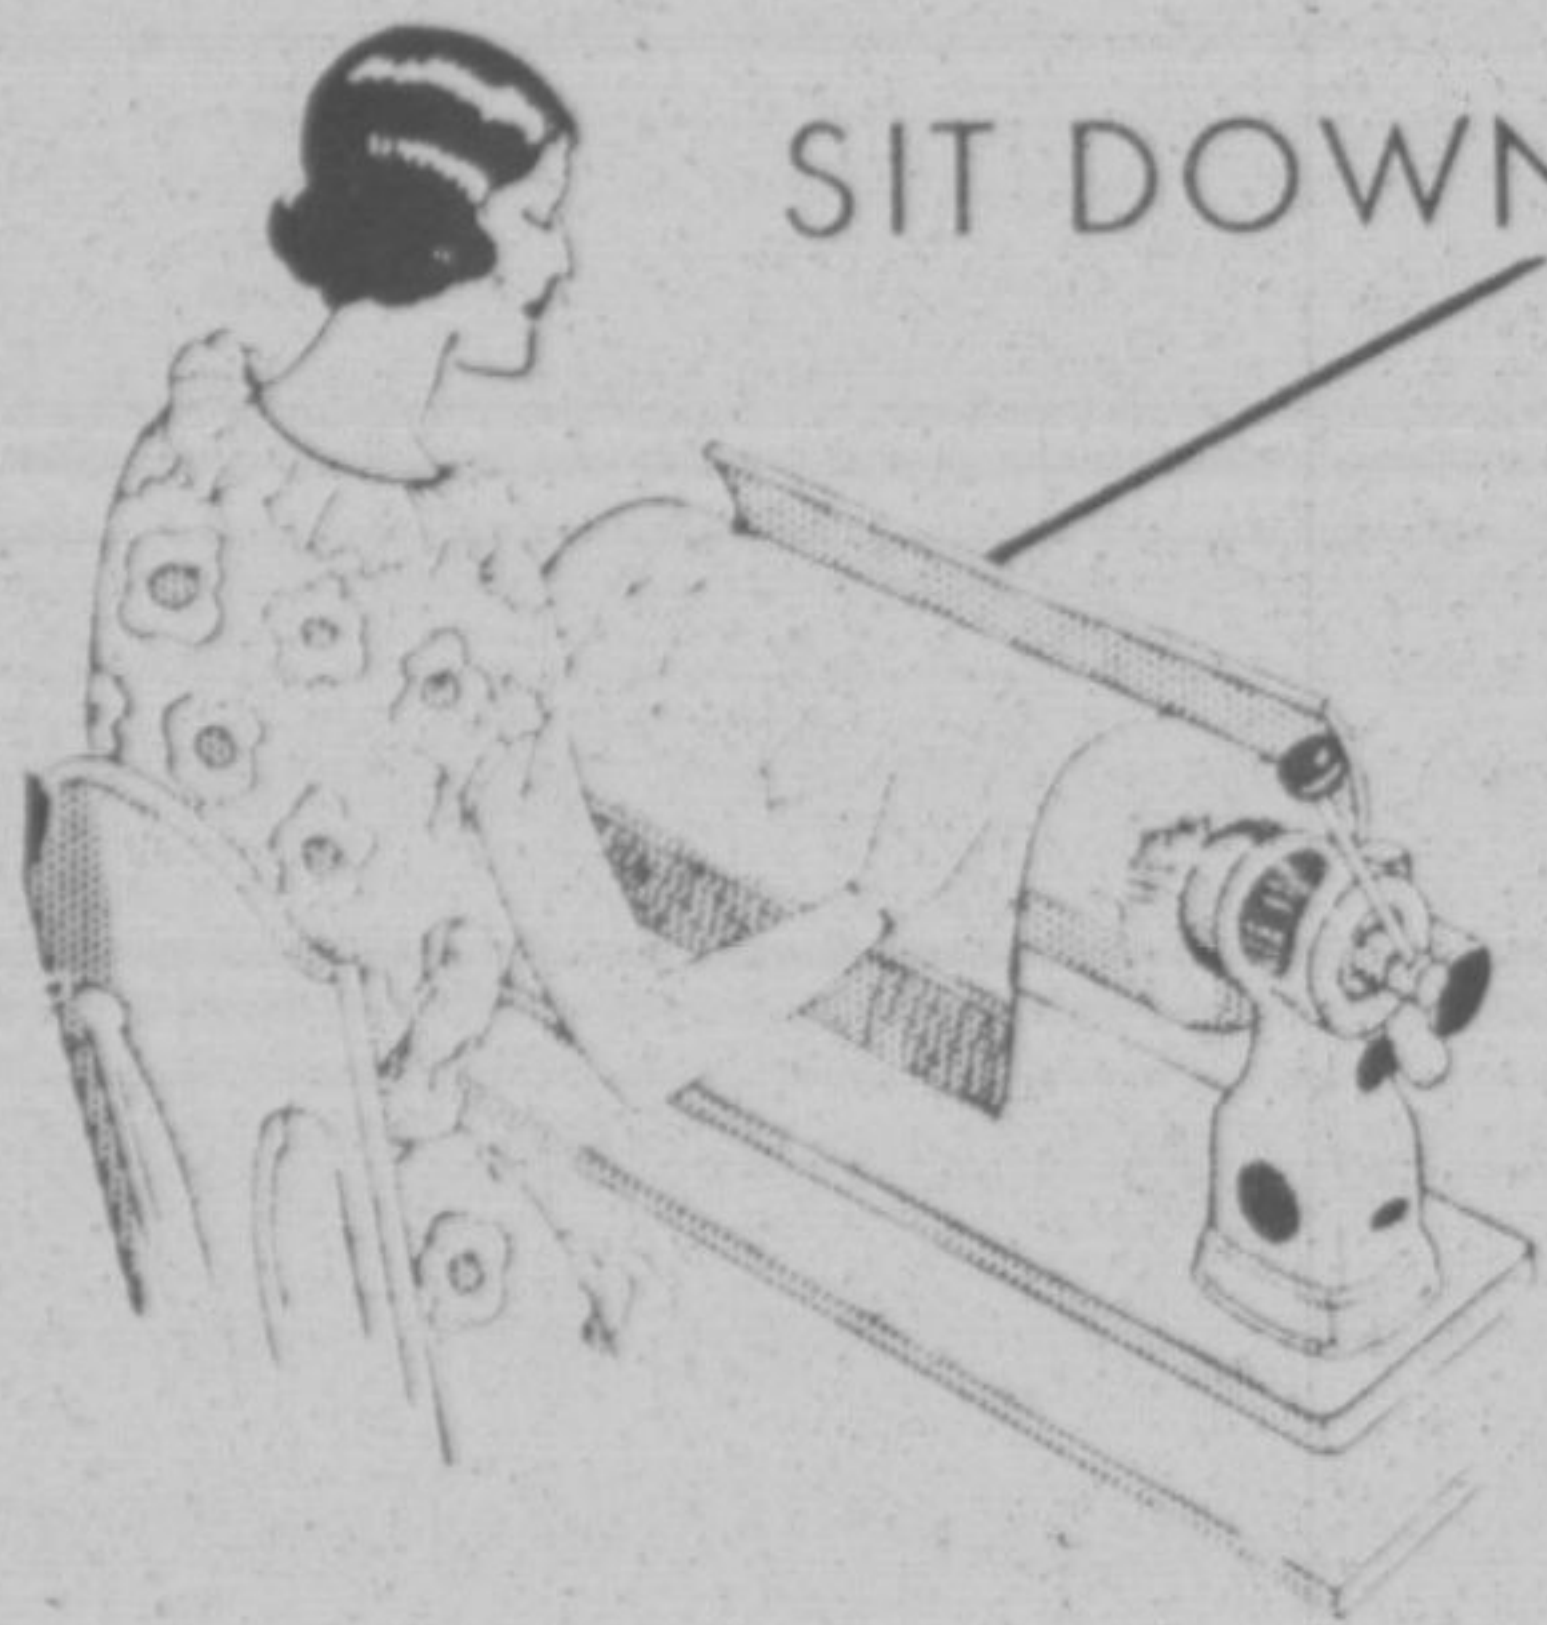

The Fedelco Special and Thor electric washing machines are built for speed and thoroughness. Their sizeable porcelain-lined tubs take a large batch of clothes (six pounds, dry) and cleanse them gently and perfectly in from five to eight minutes. No preliminary soaking is necessary. Wringers swing to any handy position. The Fedelco Special is finished in durable green and tan enamel, and the Thor in green enamel. Machines are self-draining and after the washing is finished, roll easily into a corner.

The Fedelco Special is very reasonably priced at, cash **\$99⁵⁰**

The Thor is also a bargain at, cash **\$99⁷⁵**

SIT DOWN TO YOUR IRONING

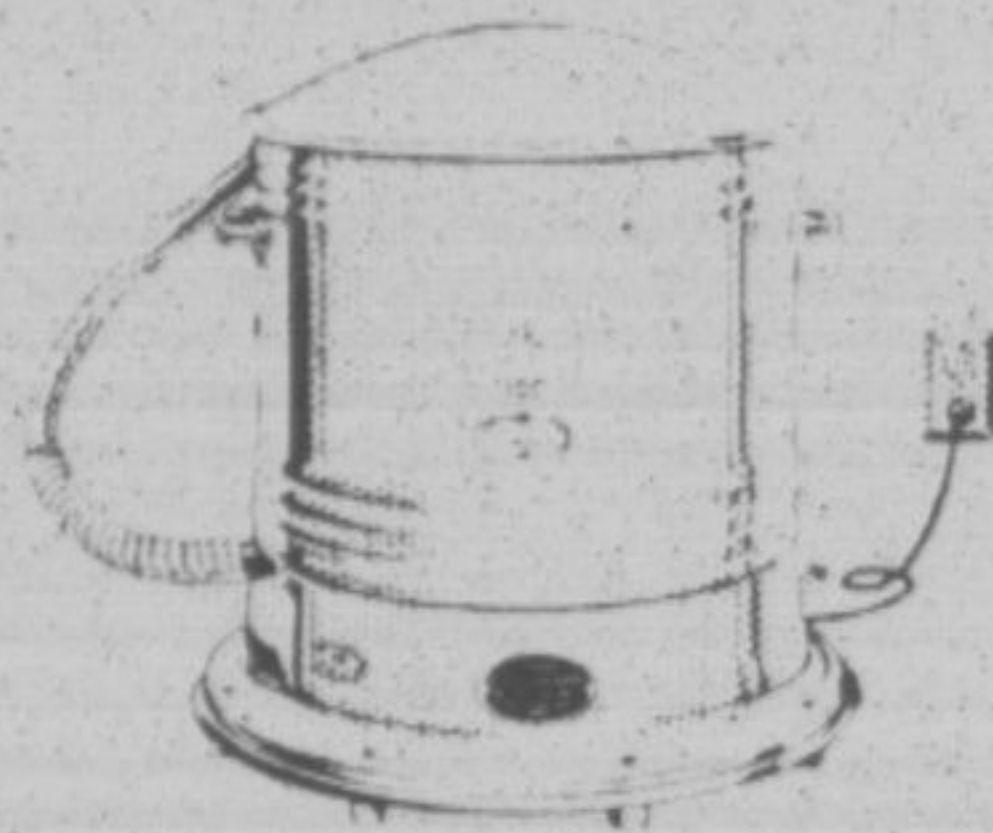

A power ironer gives you a half-holiday on ironing day. With an ironing surface of ten flat irons, it hurries you through flat pieces, as well as shirts and dresses, in about one-fourth the time. No effort at all to operate. The Thor or Fedelco table model has a 26 inch-roll and **\$79⁵⁰** plugs into any wall outlet. Cash

An ironer attachment for both the Fedelco Special and Thor Washers lets the motors on these machines do double duty. Simply slip off the wringer and slip on the ironer. Pieces guided onto the roller are pressed evenly and with a better sheen than is possible with hand ironing. Cash, only **\$49⁵⁰**

For the MID-WEEK WASH

— or the small apartment — the compact little Whirl-dry saves energy and time. Ideal for baby clothes, for dainty underthings, for table linens. Only 18-inches high, it slides under sink or range. In **\$49⁵⁰** blue, gray, green or ivory.

CHOOSE YOUR TEMPERATURE

— and then iron. The heat control on the Hotpoint automatic iron lets you select just the right temperature for silks, for linens or for whatever you are ironing, speeding up and perfecting the work. Finished in lustrous chromeplate. Cash **\$8⁸⁰**

All these Laundry Helps may be purchased the convenient "Little by Little" way with small carrying charge.
