The program:

edians — a great spectacular talking picture.

Monday and Tuesday, Aug. 18-19—Lillian Gish in her first talking production "One Romantic Night," with Conrad Nagel, Rod LaRocque, Marie Dressler and O. P. Heggie, exhibiting the artistry of a great cast at its best.

Wednesday and Thursday, Aug. 20 and 21—Marion Davies in a story of the "gay nineties," "The Florodora Girl" a most unusual musical romance.

Highwood Team Wins from St. Anthony's in Game Last Sunday

The Highwood baseball team defeated the St. Anthony nine of Wau-

kegan last Sunday at Highwood, 8-7. Both teams made fourteen hits, but while the Saints were playing errorless ball the Highwood combine was making three errors. The St. Anthony hurlers did well, while the Highwood pitcher was handing out eight walks, and still, despite all this, the Saints lost.

Vasilius started on the mound for the Saints, and was knocked out of the box in the third inning when the Highwood nine staked a seven-run rally. Navickus succeeded him, and pitched extremely well, walking only one, and fanning ten. Rund pitched for the winners, and walked eight, fanning eight. It was that one inning which spelled disaster for the St. Anthony team.

Dickshot let the Saints in batting with four hits in five times at bat, one being a double. Rogan got four hits in five trips to the plate for the winners to lead them with the stick.

By losing this game the Saints drop to second place in the Tri-County league.

THE CHINESE SYSTEM ISN'T SO BAD!

Most of us have read about the Chinese who pay their doctor to keep them well, and stop paying him when they become ill. This method naturally keeps the doctor interested in his patients to the extent of seeing that they are kept well, and in the event that they are stricken with illness, he naturally tries to make them well again as soon as possible so that he again is privileged to collect his fee.

Our preventive service acts somewhat in the same way, because if your car is brought to us regularly for inspection and adjustment, you are charging us with the duties of the Chinese doctor to the extent of keeping your car on the road in good condition, which will prevent you from laying up your automobile for a long period of time.

Another thing about the Chinese people is that they use some five thousand hieroglyphics in their writing and not many Chinese people know the meaning of all these characters, so that they find it necessary to go to someone familiar with the alphabet to write and interpret their letters for them. Have you ever stopped to think of the thousands of parts that are necessary in the make-up of your automobile that you are not familiar with? Not being in the garage business, naturally, you are not acquainted with the most of these parts or their importance to one another which keeps your car in good running order. Having made automobiles our business, we have made a study of all these parts, and therefore are in a position to offer you this preventive service, and like the Chinese doctor, will make it a point to keep your car in first class condition if given the opportunity to do so — or if it is in need of reconditioning, let us do this work for you, and then keep it in good order.
