NUMBER 25

HIGH SCHOOL PLANS FOR FALL OPENING

**New Pupils Received Sept. 8 and
All Classes Begin Sept. 9;
New Teachers**

The local high school opens Monday, Sept. 8 at 8:30 a. m. On this day only first year students are received. On the following day, Tuesday, all classes will be in session. Students should come prepared to buy their books the first day. The Student Book store in the basement of Shields Hall sells both new and used books for cash at 10 to 50 per cent below list except in the case of very low priced English classics.

New Offices

The office of the high school was built to accommodate a school of two hundred and fifty. It is now being enlarged by extending out over the original engine room to the north. Here will be found a new office for the principal, a waiting room and two smaller offices for the dean of girls and the head of research. The former office of the principal will be used by the registrar and file clerk.

To Teach Music

After a nation-wide search for the most promising teacher of high school music Mr. Harold N. Finch of Niagara Falls, New York, has been chosen. Mr. Walter S. Armbruster, teacher of music in Lake Forest col-

Friend Contributes Following Tribute to the Late Mrs. Goodnow

The following tribute to the late Mrs. George F. Goodnow is contributed by a friend:

On the morning of August 9th, Mrs. George F. Goodnow who for many years lived on the South Green Bay road of this city, suffering from a period of despondency, threw herself in front of a Chicago and Northwestern train at Zion City and was fatally injured. She died several hours later at the Victory Memorial hospital at Waukegan.

Mrs. Goodnow was the widow of the late George F. Goodnow, consulting engineer and former president of the North Shore Gas company, who died in the spring of last year. The following fall Mrs. Goodnow sold her estate on the Green Bay road and in October sailed for Europe where she planned an extended sojourn in Italy, Spain, and France. Having at her command a good working knowledge of both the French and Italian languages, she applied herself diligently for two months before her departure to the study of Spanish, thus gaining a knowledge which added greatly to her understanding and enjoyment of the two months spent in Spain. She returned last May with glowing accounts of quiet living in the places which interested her, of giving herself time to absorb what she saw in a few places rather than trying to see

Rotary Club Members Describe Vacations At Regular Meeting

The weekly luncheon session of the Highland Park Rotary club, held Monday noon at the Moraine hotel, was enlivened by several short and interesting talks by members descriptive of their several vacation trips.

Walter Meierhoff told of a motor trip to the Black Hills, Yellowstone Park, Colorado Springs and other points in the west. Mrs. Meierhoff accompanied him.

Ed Schweitzer described a trip through Yellowstone Park and a visit to Salt Lake City, Utah.

Charles Zahn spent his vacation at his summer cottage in Wisconsin and he told of some of his experiences there.

R. L. Sandwick gave details of a trip around Lake Superior, including a visit to Duluth, Minn., and also to points in Canada, in which he was accompanied by Mrs. Sandwick.

All of these talks were heard with interest. All reported good times and pleasant outings, and the program was one of the most enjoyed by the club in some time.

Ravinia Playground Ball Team Wins Title in Series, Beats Sunset

The Ravinia playground team cinched the title of the playground series last Wednesday by decisively defeating the Sunset aggregate, 23-13. The batteries for Sunset were Brennan and Gunckel, for Ravinia Canmann and Bowman. Sunset started the proceedings with three runs in the first, but Ravinia took double vengeance with twelve men across the plate in the second. From then on it was a struggle to see who could make the fewest runs, and Sunset won. With only two games left, Sunset hasn't a chance to come back, for they are behind in the series, 6 to 3. If Sunset wins the two remaining games they will have a chance to tie up the series on playground day with the exhibition game.

Sunset's hard-trying but never-winning baseball team lost another close game to Ravinia last Monday by a 7-5 count. Hargrave pitched a nice game for the Sunset squad, but they lost ground in the eighth and the Ravinia boys pushed over five runs to tie the count. Nothing happened in the ninth, tenth, and in the first half of the eleventh Hargrave walked Benson intentionally, and while he was trying to do the same thing to Becker he slipped and put one over. Becker lifted it to center for a homer, and Benson scampered in ahead of him. Sunset went out one-two-three in their half of the inning.

A double header will be played on Wednesday, Aug. 20, and the final game of the series on Playground day at Sunset park. In the last game the Sunset boys, if they win the double header, will be fighting to come into a tie so they can play another game on Sunday.

"Who's who" Series Of Pictures of Local Men Starts in This Issue

In this issue the Highland Park Press begins a series of "Who's Who in Highland Park, Ravinia, Highwood and Deerfield," the purpose of which is to familiarize the residents of this city and its neighboring towns with the prominent professional and business men and public officials of these cities.

Each week one or more pictures of leading men in Highland Park, Ravinia, Deerfield or Highwood will be published in the Press with brief mention of their vocation or office, their place of residence or business and other such information.

Highland Park in the past ten years has doubled in population and the neighboring towns also have grown considerably. To many of the new residents of these cities many of the leading men in their communities may not be known, and it is also a fact that there are many older residents who are not acquainted with many of the professional and business men and officials who hold prominent places in the business and political life of their city.

Hence, the Press feels that the "Who's Who" series will be of especial interest as a means of helping the people of these cities to become better acquainted with the men who are helping greatly in the growth and progress of these communities.

All Local Schools to Reopen Monday, Sept. 8; Plans Are Under Way

High and public schools in this city will reopen for the fall and winter sessions on the Monday after Labor Day, Sept. 8. As Labor Day comes on Monday, Sept. 1, this year, the schools open one week later, instead of on the next day, as occurs sometimes when Labor Day is a few days after the first of the month.

Deerfield-Shields high school will be open for registration of pupils on September 8, and the Elm Place, Green Bay, Lincoln, Ravinia, Braeside, West Ridge schools also will open the same Monday, Sept. 8.

Parents and pupils who are planning to be absent from the city during the next week or so are urged to arrange matters so that the children may not miss the opening days of school.

More detailed announcement of the opening plans, etc., of the several schools will be made later.

Luncheon-Bridge at Briergate Club Friday

The finance committee of the Highland Park Woman's club is sponsoring a luncheon and bridge party at the Briergate Golf club on Friday afternoon, Aug. 22. A few tables are still available.

PLAYGROUND FACTOR IN CITY CHILD LIFE

**Proving of Great Benefit Here
Under Management of East
Park Board**

(Picture on Cover page)

Prior to the organization by the Park board of playground activities for the summer months the children of the district were left entirely to their own resources for amusement. It was not uncommon to find them playing on the streets or in vacant lots, causing annoyance to the public or becoming engaged in some mischief. Highland Park and the North Shore have many natural means of play facilities for the children, such as the lake and beaches, and many spacious parks, but there facilities cannot give the greatest amount of service without proper supervision. With the ever-increasing auto traffic children are never safe on the streets while at play.

Use of Leisure Time

The use of leisure time is recognized today as one of the most vital problems facing the country. So closely does it concern the welfare of the people of America that ex-President Coolidge called a special conference to study the question, and President Hoover will convene a similar meeting this year. Only in his free time is the individual essentially himself, only then does he have both the desire and the opportunity to learn something of the art of living as dis-
