Review of Season

Port Clinton playground, under Miss Grimson's supervision surpassed all expectations for the first season and entitles Miss Grimson to much credit. The parents showed their appreciation by their support in all she undertook. A greater season next year at Port Clinton is confidently expected.

Miss Cancie, the director at Sunset park, is to be congratulated on the success of her work which has been greatly appreciated each year. Sunset park is the largest park and draws from a greater area than the other playfields.

Plan New Playground

Ravinia school playground was fortunate in having Miss Smith and Miss Daly who have recognized ability and many friends in Ravinia. The Ravinia section has always shown marked interest in this work and is supported by enthusiastic parents. There will be a new playfield in Ravinia next year with all conveniences and equipment.

The children of Lincoln park playground failed to respond to the opportunity offered them. A director was put in charge of the playground at the opening of the season without results. This park is an ideal playfield and is provided with a suitable shelter house in which all sanitary conveniences are arranged. It is regrettable that this seeming indifference should exist as the park board has done all possible for the success of the playground. Perhaps another year will prove different.
