Start Proceedings to Secure Right of Way In City for Route 57

Efforts to extend the state super-highway, known as Route 57, north through Highland Park, are culminating in notice of condemnation proceedings started by the city to secure the necessary right of way, and which notice appears on other pages of this issue. The road with 100-foot right of way and concrete slab 40 feet wide is completed to the south line of the county. It will connect with Crawford avenue in Chicago and will eventually be extended to the Wisconsin state line.

In Highland Park the route is to run from north to south through the city immediately east of the Skokie Valley line of the North Shore railroad. The road is being built by the state from gasoline tax money but it is up to the several communities to secure the rights of way, and Highland Park city administration is endeavoring to do so by condemnation proceedings.

It is pointed out that the road would have been built during the administration of Governor Small out of the \$100,000,000 bond issue funds for road building, had it been possible to obtain the right of way in Highland Park at that time. In fact Governor Small offered to continue the construction through this city if the city would furnish a bond guaranteeing securing of the right of way. Supervisor William J. Obee has worked on this proposition from the county angle for two years in an effort to obtain this super-highway extension through Highland Park.

LAKE FOREST LOSES IN H. SCHOOL SUIT

First Round of Legal Battle in Courts Goes to Deerfield High; to Appeal

As a result of the quo warranto proceedings brought by the Deerfield-Shields high school board of education questioning the constitutionality of the law under which the new Lake Forest high school board of education was created last spring, the Lake Forest board was ousted Monday through an order entered by Circuit Judge Edward Shurtleff, following arguments of attorneys. Deerfield-Shields was represented by Attorney Richard F. Locke of Glen Ellyn and Lake Forest by Attorney Cyrus Adams.

Is Test Case

The action was brought to test the validity of the amendment to the township high school law passed a year or two ago by the legislature to provide for dismemberment of a school district under certain conditions. This law the Deerfield-Shields board attached in its arguments.

The decision is to be appealed to the supreme court by stipulation and is expected to come up for a hearing shortly. The court sits, it is understood, until the last week of this month.
