Just three years ago this week this organization began operations. This is but a short time, but wonderful progress has been made. Beginning in a modest way in 1927, a conscientious endeavor to supply the residents of Highland Park and the North Shore with the best workmanship possible has made the Vogue Cleaners one of the leaders in the dry cleaning industry.

Only last fall Vogue Cleaners put into operation their present cleaning plant, which we believe is the finest on the North Shore.

Mr. John B. Nash, president of the organization has brought many new and pleasing ideas into the dry cleaning and rug cleaning and repairing industry. His experience in dry cleaning and efficient operation of cleaning plants dates back to 1915. His entire time devoted to the dry cleaning industry has been spent on the North Shore.

Vogue Cleaners wish to take this opportunity to thank their many friends and patrons to whom they are indebted for their success.
