

State Bank Featuring Attractive Scale and Clock Plan; Is Unique

"Weigh to Save" and "Time to Save" plans have been inaugurated at the Highland Park State bank for the month of October. During this month it will be possible for Highland Parkers to obtain either a standard Health-o-Meter scale or a standard Havlin all-electric clock, through the simple medium of a new savings account.

Potential savers have their choice of either the clock or scale when calling at the bank to complete details for opening a new savings account.

The "Weigh to Save" plans is featured by the well-known automatic bathroom scale, Health-o-Meter. The scale has a capacity of 250 pounds, lasts a life time and is guaranteed accurate. It comes in various colors of which one has choice of selection.

Weight Control Course

A scientific Weight Control book is given free with each scale. This authentic treatise on weight control prescribes the proper diets and exercises for building up or building down ones weight on the way to health. It is hard to find a woman, or a man or child for that matter, who does not appreciate the value of a good health scale.

They serve a wide scope of utility and can be used for weighing anything up to 250 pounds. A special 300-pound scale can be furnished on request.

The "Time to Save" plan is featured by the handsome Gothic model Havalarm all-electric clock which is now so popular and which precludes all alibis for not getting to work on time.

Authentic Time

These clocks bring you U. S. Naval observatory time and are always correct to a split second. They operate silently from any electric light socket and require no winding, oiling or regulating.

Both "Weigh to Save" and "Time to Save" plans are so devised that the savings depositor obtains a clock or scale without cost purely as a bonus for practicing the good old-fashioned savings habit.

ADJUDICATION NOTICE

PUBLIC NOTICE is hereby given that the subscriber administratrix of the estate of Edmund G. Lisle, deceased, will attend the Probate Court of Lake County, at a term thereof to be holden at the Court House in Waukegan, in said County, on the first Monday of December next, 1930, when and where all persons having claims against said estate are notified and requested to present the same to said Court for adjudication.

J. M. Appel to Speak at Building Assn. Meeting

The 51st annual convention of the Building Association League of Illinois was held in Freeport, October 14-16, with headquarters at the Hotel Freeport.

A number of prominent building and loan leaders of the state and nation and world were scheduled to appear upon the program, among them being R. Holtby Myers, Los Angeles, California, president of the United States Building and Loan league; H. Morton Bodfish, Chicago, executive manager of the United States Building and Loan league; Henry S. Rosenthal, Cincinnati, Ohio, editor, American Building Association News; J. M. Appel, president, Broadway National bank, Chicago and the Highland Park State bank, Highland Park; and Harold Bellman, London, England, general manager, Abbey Road Building society, with assets of one hundred and twenty four million dollars.

Over 50 Miles of New Roads Paved Weekly in Illinois, State Record

Well over 50 miles of new roads are being paved each week by the state of Illinois, according to a report by the department of construction.

During the six working days that the last report covers, a total of 54.63 miles of state bond issue and state aid roads were constructed. Of this addition to the highway mileage of the state, 52.46 miles were paved, bringing the total for the season up to 535.99 miles of pavement. The state forces graveled 2.17 miles of highway during the week and 9.53 miles this year.

The compilation of the road construction for the week, prepared by C. M. Hathaway, engineer of construction, shows that 80 concrete mixers were in operation. Of these 68 were at work on state bond issue routes, in all of the nine districts of the state.

State aid roads, under the direction of the division of highways, were advanced 9.65 miles during the week, bringing the total 1930 mileage in this branch of road construction up to 118.87 miles.

The report places the number of men directly employed at road construction work during the week at 12,000.

Deny That Deserter Confessed Gun Theft

Fort Sheridan officials last week denied reports emanating from Chicago, that Corporal Thomas McAdrian, army deserter, had confessed to Chicago police that he had stolen an army machine gun and 18,000 rounds of ammunition, and had sold them to "Cicero gangsters."

McAdrian, who deserted two months ago, was captured three weeks ago, Captain Walter McCord, army officer investigating the theft of the machine gun, said today, and has been held in the post guard-house for the past three weeks.

"He has no connection with the stolen machine gun," McCord said.
