H. P. TROOP 33 HAS FIRST MEETING

Troop 33 had their first meeting at Lincoln school. All of the scouts were there. Eagle Scout Denton Smith turned over his duties as scribe to Larry Briggs, and we paid up our dues until summer.

After that we went outside to play a game, which was named "Jack, Jack; show your light." One scout would take a flashlight and would go hide in some corner of the playground so we could not see him; then at the works of "Jack, Jack, show your light," he would flash it for a second. The one who sees the flash and tags the man takes his place. That ended our meeting.—Kerwyn Smith, troop reporter.

A & P Stores Sales Record in September Sets New High Mark

The Great Atlantic & Pacific Tea Company reports sales for September of \$77,022,658, establishing a new high record for the month. This compares with \$75,245,845 for the corresponding period of 1929, and is an increase of \$1,776,813 or of 2.36%.

Actual quantity of goods sold was 378,627 tons, compared with 336,309 tons for September of last year, a gain of 42,318 tons or of 12.58%.

In a statement issued with its September sales report the Great Atlantic & Pacific Tea Company said:

"The physical volume of business indicated in the Company's tonnage figures for September, 1930, shows a percentage of increase greater than that of the dollar sales because of the decline in commodity prices. The average price per ton of goods sold in our stores during September, 1930, was \$203.43, whereas in September, 1929, it was \$223.74. This means that last month consumers received 10% more food for a dollar than they received a year ago."

Sales for the first nine months of the year ended September 30 were \$800,168,990, compared with \$750,945,457 for the first nine months of 1929, a gain of 6.55%. Tonnage sales for the same period were 3,860,144 tons, compared with 3,449,067 tons in 1929, a gain of 11.92%.

Average weekly sales for the four weeks in September were \$19,255,655, compared with \$18,811,461 for the corresponding four weeks a year ago, an increase of \$444,204. Average weekly tonnage sales were 94,657 tons, compared with 84,077 for September a year ago, an increase of 10,580 tons.
