

# FOR the WOMAN WHO *prizes home cleanliness*

## a GAS INCINERATOR *provides a wholesome method of refuse disposal*

Where is there a woman who has ever been really contented with a garbage can? Even when it has been protected from pests that prowl and pests that creep and fly . . . the garbage can is still a makeshift. An odorous spot where disease germs breed by millions . . . a definite, constant menace to health. What woman is satisfied with an unsightly, unsanitary, unnecessary garbage can?

Once the advantages of the Gas Incinerator are known, fastidious housewives seldom hesitate. It's the simplest,

quickest, safest means of banishing household refuse. Lift the lid; press a button; forget it! Automatic, silent, smokeless, odorless . . . and surprisingly economical to operate. Leaves nothing but a powderlike ash.

Come in so we can explain more fully the complete advantages of the Gas Incinerator. Or if you wish, simply telephone and we'll have our representative call on you.

### SMALL DOWN PAYMENT

Then pay the balance in 12  
equal monthly installments  
with your gas bills.
