

# Dependable Advice

It is natural to go to a lawyer for legal advice because it is his business to know about your legal matters. He can advise you what to do and what not to do. He interprets the law for you.

Banking is a profession, too. It's the job of the officers of this bank to keep up to date on business and financial matters. Consult them as you do your lawyer or your physician. They will give you the benefit of their experience in money matters.
