

Now You Can Have FREE TURKEY

*for your
Thanksgiving
dinner*

**Just Buy Your New
GAS RANGE before
November 26**

This year serve a savory, brown turkey roasted in a new oven heat controlled gas range. You can have your new gas range by making only a **SMALL DOWN PAYMENT** ... and the "big bird" will cost you nothing.

Preparation of an elaborate Thanksgiving dinner will not be difficult, nor will it require your presence in the kitchen all morning on Thanksgiving day if you have a modern gas range to cook the meal. Instead, you can place your *free* turkey in the oven, along with other foods on your menu, and then forget about cooking until time to place dinner on the table.

It will be a revelation to you ... this remarkable ease with which meals are prepared in the oven of a heat controlled gas range. You'll find the biggest dinner of the year is cooked more easily than an ordinary dinner is when you must linger in the kitchen to watch the oven.

Heat control takes your place in overseeing the temperature in the oven ... and you are freed forever from oven watching.

Celebrate this Thanksgiving with new freedom by replacing your present cook stove with an oven heat controlled gas range ... the most important labor saving appliance in your kitchen. Its valued assistance will be at hand every day in the year ... saving you hours of tedious labor ... giving you hours of welcome leisure.

Accept our invitation to come in and see the Magic Chef ... very latest mode in gas ranges. Embodied in the Magic Chef (Patrician, Jonquil or the smaller Tiffin Model) are features never before offered you. Their charm and beauty bring a richer appearance ... a new colorful air ... to your kitchen. Efficient in operation, too ... assuring cooking results that will give you new delight. Gas ranges in other designs also on display. A wide range of prices for your convenience.

Make this a real Thanksgiving for future cooking ease. Buy your new gas range before November 26, and receive your turkey Free!
