### Son of H. P. Woman in Flight to Mexico City; Flew Here in Summer

Mrs. H. B. Clark of Highland Park has received numerous clippings from San Diego (Calif.) newspapers telling of a recent 2,000 mile flight made by her son, Joseph Sefton Wakefield from San Diego, Calif., to Mexico City and return as envoy of the San Diego and Orange counties' good-will excursion to Mexico City. He spent five days in Mexico City and encountered no difficulties en route, except a 15-hour delay at Mazatlan on account of bad weather, on the return trip. His Fleet plane functioned splendidly throughout.

Wakefield enjoys the distinction of being the first transport pilot in the United States to be graduated from an approved U. S. department of commerce ground and flying school, according to the clippings. He achieved this honor October 25, 1929, when he successfully passed the rigid tests.

Last summer he made successfully an airplane trip from San Diego to Highland Park to visit his mother. Before returning to San Diego, where he makes his home with his grandmother, he flew to Detroit, New York and Washington and points in the south. He is 23 years old.

Lieutenant Paul W. Blanchard, Jr., Air Corps, U. S. Army of Brooks Field, San Antonio, Texas, who has been granted his leave of absence, will spend the holiday season with his parents, Mr. and Mrs. Paul W. Blanchard Sr. of Walker avenue.

## WAUKEGAN GENESSE PUBLIX THEATRE

Prices to 6 p.m. - Adults 35c; Children 10c  
Evening - Adults 50c; Children 10c  
Sunday Prices - Adults 60c; Children 25c

Sunday December 28

## LEAGUE OF WOMEN VOTERS MEETING

(Continued from page 4)

should be permanent and central: Permanent registration is the central idea of practically all movements for improvement at the present time: It affords the voter a minimum of trouble in connection with registration: it greatly reduces costs: and in practical operation it has been found that the right system of permanent registration can be made more effective in preventing voting frauds than periodic registration. Permanent registration is entirely feasible and practicable but it is necessary to have a sound system. It is not enough merely to graft permanence upon existing types of registration system. The whole system—the records, organization, procedure, and methods of keeping the lists up to date, must be adapted to permanent registration.

### Registration Lists

"Registration lists should be kept up to date by means of official death reports transfers made by persons who have moved, cancellation upon failure to vote within a two-year period, and by a check made through the post office which verifies mailing lists at a low cost. Each voter should be identified on election day by means of his signature which will be compared with his signature taken at the time of registration. The best method would be to have each voter sign a certificate. A comparison could then be made with the voter's signature on the certificate and his signature on the registration blank. The certificates would constitute the poll book.

"The office group ballot form should be used. Under this system the names of the candidates are arranged under the office for which they are running. In order to vote, each voter must put a cross mark opposite the name of the candidate he prefers for each office. No provisions are made for voting straight party tickets. This form has been thoroughly tried out in 14 states.

"The election authorities should have a free hand in the choice of registration and election officials without regard to party affiliations or location within the city."

## County Poor Claims Increased \$10,000; Problem Serious One

The poor claims in Lake county increased almost \$10,000 in the last quarter according to Mr. A. W. Vercoe, chairman of the Finance committee of the county board of supervisors.

Following are the figures:

Township	Dec. 1929	Dec. 1930
Waukegan	\$ 7,900.32	\$13,285.79
Shields	2,063.01	3,815.13
Deerfield	2,744.15	3,483.10
Balance of townships	3,830.65	5,582.53

Total .....\$16,538.13 \$26,166.55  
Increase in last quarter \$9,628.42.

According to members of the county board this is going to be a serious problem for the county if present conditions continue.
