Carbon Monoxide Kills Waukegan Man in Garage

Robert S. Grice, for 22 years a well known and universally liked resident of Waukegan, was found dead on the floor of his garage at 327 North West street last week. A pair of pliers lay close to his hand. The open switch and empty gas tank of his automobile were mute testimony that he had been overcome by poisonous carbon monoxide gas as he worked on his car in the closed garage during the afternoon.

He had evidently been dead since late afternoon, as there was no light in the garage and he could not have worked after sundown. Mrs. Grice, who had been worried about her husband when he failed to keep an appointment with her downtown, discovered his body when she took a flashlight to the garage to see whether or not the car was there.

Mr. and Mrs. W. Antes will be the Christmas dinner guests at the home of Mr. and Mrs. C. Ender of Deerfield.

PUBLIC SERVICE CO. MAKES GOOD SHOWING

Reports For 11 Months Indicate It to Be One of Few to Grow

Judging from the report on earnings of the Public Service corporation of Northern Illinois, for the eleven months of the year, this corporation will be one of the few in the United States to show an increase in earnings for 1929 over 1930, says a newspaper report.

The corporation is showing a marked increase in both gross and net earnings for the year.

Net earnings of Public Service of Northern Illinois after depreciation interest, federal taxes and all other charges in each of the first three quarters of this year showed an increase over the results in the corresponding period of 1929. If the showing for the final three months of the year is equal to that in the last quarter of 1929, the net income for 1930 will be in excess of \$7,750,000, as compared with \$7,100,870 last year, which was \$1,247,416 in excess of the previous record.

Gain for Quarter Probable

After allowing for preferred dividend requirement, a net income of \$7,750,000 would be equal to approximately \$13.80 a share on 504,344 shares of common stock outstanding at this time. There is a good possibility of the results for the final quarter of 1930 being better than in the same period of last year, each gain of \$100,000 being equivalent to nearly 20 cents a share on the common stock.

The earnings for 1929 were equal to \$13.69 on 442,479 shares of common stock outstanding at the end of the year. The best showing, heretofore, on the issue common capitalization at the end of any year was \$13.76, reported for 1928. Based on the average amount of common stock on which dividends are paid, the per share figures are materially higher, being \$16.04 in 1929 and \$15.84 in 1928, as against common dividend payments of \$8 a share.

Gross Growing Steadily

Public Service has been experiencing a consistent improvement in gross revenues this year notwithstanding the fact that business activity in general has been on a reduced scale. In the first nine months of this year the gross earnings totaled \$26,684,294, which represented a gain of nearly \$2,000,000 over the total in the corresponding period of 1929. The net income after all charges for the nine months was \$5,545,049 and \$4,895,470, respectively. In the final quarter of 1929 gross revenues aggregated \$9,250,518 and the net income was \$2,205,400. The first and last quarters of the year are productive of the largest earnings.

Prairie Farmer Buys Illinois Farm Paper

Burridge D. Butler, publisher of the Prairie Farmer, a former resident of Highland Park, has announced the purchase of the Illinois Farmer.

The latter publication, which has been issued for 34 years and was owned by Dante Pierce, now of Des Moines, Iowa, will cease publication, Butler announced.
